TIME System Operator Training Policy
Any individual who uses a TIME System terminal must be trained in the operation of the device, system policies and procedures. In addition, all personnel with unescorted access to terminal areas and/or areas where TIME System information is stored must receive security awareness training. Initial training must occur within six months of employment or assignment to a position requiring terminal operation. This training will include a test to affirm the operators’ proficiency and knowledge of CIB, NCIC and Nlets policies and procedures. All terminal operators will be re-tested biennially to reaffirm operating proficiency. The level of training should be based on system use.

TIME System Certification Levels
The Crime Information Bureau has designated five levels of training, which require biennial recertification, and additional training classes that do not require recertification:

Security Awareness
This training reviews the basic security requirements that must be followed to gain access to the TIME/CJIS systems and information. It covers issues such as required background checks, physical security measures (logons, passwords, etc), technical security requirements (encryption), and what to do in the event of a security incident. The CJIS Security policy requires that security awareness training be completed biennially by all personnel who have access to criminal justice information, manages and accesses NCIC or other CJIS systems. All employees who have access to criminal justice information and all appropriate information technology (IT) personnel shall receive security awareness within six months of their appointment or assignment. This course is designed for those who will not be attaining a TIME System certification but require security training.

Available online via TRAIN or a paper version is available on the CIB website, https://wilenet.org
**eTIME Certification**

Instruction will include TIME System query functions to the data files. Currently eTIME provides access to Wisconsin Department of Transportation driver’s registration files and vehicle registration files, out-of-state driver’s registration files and vehicle registration files, Wisconsin and out-of-state criminal history files, DOC person files, DNR files, CIB/NCIC wanted person, missing person, protection order/injunction files and other CIB/NCIC person and vehicle hot files. A query transaction is also available for CCAP, NICS and Mental Health records, CIB/NCIC stolen part file along with the NCIC stolen article, stolen security, stolen/lost/missing/felony and recovered gun files. This certification does not authorize the individual to operate mobile data computers with MDC, full query or full access capabilities.

**Available online via TRAIN.**

Online: To achieve a full eTIME Certification online requires completion of Modules 1, 2, 3 and 5; however users may certify in only the modules applicable to their job duties. Student must pass test questions included in each module.

**Mobile Data Operator Certification**

The material will include file queries only; it will not include entries or updates. This certification authorizes the individual to operate terminals/computers with eTIME access, MDC access and perform transactions available for MDC’s on full access terminals.

**Available online via TRAIN or in a classroom environment.**

Classroom: Taught by Agency Assigned Instructors (AAI) who are TIME System Basic or Advanced certified and have received specialized training from a CIB training officer. Students must pass a written examination.

Online: To achieve an MDC certification online requires completion of Modules 1 through 6. Student must pass test questions included in each module.

**Basic**

Instruction designed for beginning personnel who access the TIME System. The training consists of basic instruction for sending administrative messages; querying the state and national computerized data files; interpretation of computer responses and security awareness. These files/responses include National Crime Information Center and Crime Information Bureau hot files on persons, vehicles and property; Department of Corrections person files, Department of Transportation registration and licensing files; and Department of Natural Resources license and snowmobile/ATV/boat registration records. Instruction includes information on obtaining and interpreting criminal history record information from national, state and local repositories, hit confirmation procedures and liability. Students may wish to complete the New Operator Handout prior to enrollment. A master copy of the New Operator Handout is available at www.wilenet.org.

**Available online via TRAIN or in a classroom environment.**

Classroom: Instruction consists of a two-day (8:30 a.m. - 4 p.m.) session. Students must pass a written examination.

Online: To achieve a Basic certification online requires completion of Modules 1 through 8. Student must pass test questions included in each module.
Advanced
Instruction designed for personnel who will perform entry, modify, supplemental and cancel transactions. Training includes record entry and cancel procedures for the Warrant/Wanted and Missing Person File, Stolen Vehicle File, Stolen Part File, Gang, Known or Appropriately Suspected Terrorist Organization File, Protection Order File, Identity Theft File, Violent Person File, NICB Impound File, Detainer File, and NCIC Stolen Property Files. Modifying and adding of additional data to these files is also covered. Students must have successfully completed Basic Certification before attending Advanced training.

Available online via TRAIN or in a classroom environment.
Classroom: Classroom instruction consists of a two-day (8:30 a.m. - 4 p.m.) session. Students must successfully complete an “at your agency project” to achieve Advanced certification.
Online: Advanced online training consists of three (3) instructional modules and a module with materials needed to complete an “at your agency project”. Students must successfully complete this project to achieve Advanced certification.

Additional TIME System Training
Inservice/Recertification
Inservice training will include a review of selected TIME System topics, new or changed TIME System features and policies. The recertification examination is a biennial examination for certified operators who have received a Wisconsin Department of Justice certification. NCIC requires that all operators be re-certified biennially, based upon the date of their last certification.

Available online via TRAIN only.
Online: An annual inservice module is available online via TRAIN. Specific recertification examinations for MDC, Basic, and Advanced operators are also available online. Recertification for eTIME operators requires the recompletion of the appropriate modules.

Validation/Quality Control Training
This specialized training program is designed for persons assigned the duty of Validation Officer and may also include supervisors. The training will include all functions of verifying computerized records, including contacting the Clerk of Courts and complainants to determine the records are still active or valid. Instruction includes an explanation of the audit program and what documentation will be needed for the audit; file validation procedures; quality control and serious error notices. Every agency validating records in the TIME/NCIC System must have an individual assigned as a Validation Officer. CIB recommends that Validation Officers attend training every five years.

Available in a classroom environment only.
Classroom: Classroom instruction consists of a one-day (8:30 a.m. - 4 p.m.) session.

Basic Instructor Certification
This special certification is designed for persons in good standing with Criminal Justice agencies and at least three years of experience with the TIME System (Basic and Advanced Certified). The documentation required for this is 3 letters of recommendation from your agency administrators, a certificate of completion of an Instructor Development Course and of course a willingness to complete training for Basic/MDC TIME Certification for the department. Biennial re-certification will be required to sustain certification. Agencies interested in additional information should contact CIB via email at CIBTRAIN@doj.state.wi.us.
Advanced Instructor Certification
This special certification is designed for persons in good standing with Criminal Justice agencies and at least three years of experience with the TIME System (Advanced Certified). The documentation required for this is 3 letters of recommendation from your agency administrators, a certificate of completion of an Instructor Development Course and a willingness to complete training for Advanced TIME Certification for the department. Biennial re-certification will be required to sustain certification. Agencies interested in additional information should contact CIB via email at CIBTRAIN@doj.state.wi.us.

TAC Training (TIME Agency Coordinator)
A specialized training program designed for persons who serve as the point of contact at their local agency for matters related to the CJIS information access. The TAC administers the TIME system programs within the local agency and oversees the agency’s compliance with CJIS system policies assigned the duty of TIME Agency Coordinator (TAC). Each agency having TIME System access must designate an individual employed by the criminal justice agency as the TAC. Any exceptions must be coordinated with and approved by CIB. The TAC serves as the liaison between the agency and the Crime Information Bureau. The training will familiarize TIME Agency Coordinators with all physical, personnel, computer and communications safeguards and security requirements in compliance with the Department of Justice, Crime Information Bureau, Criminal Justice Information Services Division (CJIS) and International Justice and Public Safety Information Sharing Network (Nlets) rules and regulations. The TAC has an important role in ensuring terminal operators are properly trained, certified and re-certified. Instruction includes liability concerns relating to the state and national files, departmental responsibilities dealing with hit confirmation and record keeping. Every agency must designate a person as TAC and this person must complete TAC training within 12 months of assignment. CIB recommends that TACs attend training every five years.

Available in a classroom environment only.
Classroom: Classroom instruction consists of a one-day (8:30 a.m. - 4 p.m.) session.

Identification
This course is designed for persons involved in the fingerprint identification and criminal history record information process. This includes representatives from police and sheriff’s departments responsible for obtaining fingerprints, prosecutor/district attorneys’ offices and clerks of court offices. Training includes the completion of the fingerprint card, electronic submissions (administrative information and obtaining fingerprint impressions) and Final Disposition Report completion by the arresting agency, Prosecutor/District Attorney and Clerk of Court. This course also provides an explanation of the identification process, access and use of state Criminal History Record Information, the national Interstate Identification Index (III) inquiry procedures, and fingerprint pattern recognition and techniques for obtaining rolled fingerprint impressions. CIB recommends that persons involved in the fingerprint identification and criminal history record information process attend training every five years.

Available in a classroom environment only.
Classroom: This course is offered on an as needed basis. Agencies wishing to request a class should contact CIB via email to cibtrain@doj.state.wi.us or phone call to 608/266-7792. Course content and timeframe can be adjusted to meet the needs of the requesting agency.
The TIME/NCIC Systems are criminal justice computer networks that provide access to sensitive and sometimes confidential information, such as driver’s license records, criminal history records, wanted person records, etc. This information must be protected from those who would try to gain unauthorized access to the system and those who would use information obtained from the system for unauthorized purposes.

Various agencies have agreed to make their information available to law enforcement and criminal justice via the TIME and NCIC Systems for the specific purpose of facilitating the administration of criminal justice. Any misuse of this information or violation of the understandings and policies of the system jeopardizes the availability of information for all participating agencies.

The FBI’s CJIS Security Policy establishes *minimum* information security requirements to protect information sources, transmission, storage, and creation of criminal justice information. The TIME System has adopted the CJIS Security Policy as the TIME System Security Policy. Each agency and user accessing the system is responsible for ensuring the security of the system and criminal justice information.

**Authorized Personnel**

TIME/NCIC System information is only to be used by *authorized* law enforcement/criminal justice personnel for law enforcement/criminal justice purposes as outlined in CJIS Security Policy Section 5.12. Authorized personnel are those that have undergone the required fingerprint based background check, completed security awareness training and appear on the agency’s list of authorized personnel.

**System Usage**

TIME/NCIC System information is *only* to be used by authorized law enforcement/criminal justice personnel for law enforcement/criminal justice purposes. Both conditions must be met. For example, a law enforcement officer may not obtain license plate/vehicle registration information for personal reasons.

Each criminal justice agency authorized to access the TIME/NCIC Systems is required to have a written policy for discipline of policy violators. Misuse of the TIME System or information obtained from it may be a violation of state or federal laws, and violations may subject individuals and agencies to criminal prosecution and/or other penalties. The unauthorized request, receipt, or release of TIME/NCIC System information can and *has* resulted in criminal/civil proceedings.

**Physical Access & Visitors**

Agencies must control all entrances to the secure area and must verify that an individual qualifies for access before granting admission. Remember, authorized personnel are those that have undergone the required fingerprint based background check, completed security awareness training and appear on the agency’s list of authorized personnel. If a person has not met these requirements, they may only access the secure area if they are escorted by someone who is authorized.
Before granting such a visitor escorted access to the secure location you should verify the visitor’s identity. Visitors must be escorted at all times and visitor activity must be monitored.

Personnel should be aware of their surroundings and take steps to ensure unauthorized persons do not access criminal justice information or the TIME/NCIC Systems. This may include challenging or questioning unescorted subjects, verifying credentials of strangers, and/or ensuring visitors and other unauthorized users are not looking over someone’s shoulder to get information. Numerous techniques and tools exist to help ensure the security of data. These may include the use of screensavers, screen shields, terminal location and positioning, etc.

Agency personnel should ensure that all people abide by entrance and exit procedures, visitor control, handling procedures, and access control points. Personnel should report violations or suspected violations, including areas that may not be secure.

Using publicly accessible computers to access, process, store or transmit criminal justice information is prohibited. Publicly accessible computers include but are not limited to: hotel business center computers, convention center computers, public library computers, public kiosk computers, etc.

Logins

A unique login id is required for each individual who is authorized to store, process, and/or transmit criminal justice information. This includes all persons who administer and maintain the system/network that accesses and/or transmits TIME/NCIC information. Users are required to uniquely identify themselves before they are allowed to perform any actions on the system.

By logging in to and accessing the system and the information contained therein, users are signifying their agreement to abide by all system policies and procedures and acknowledging the possible consequences of misuse of system resources or criminal justice information. Users should protect their logins and not share them with anyone. Users are responsible for any and all system activity that happens under their login.

If a user is unable to login after 5 consecutive invalid access attempts, their account will be automatically locked for at least 10 minutes unless released by an administrator. In addition, the system will initiate a session lock after a maximum of 30 minutes of inactivity. The session lock will remain in effect until the user once again establishes access using appropriate login and authentication. In the interest of officer safety, devices that are part of a criminal justice conveyance, used to perform dispatch functions or designated solely for the purpose of receiving alert notifications and are staffed when in operation and located within a physically secure location are exempt from this requirement.

Passwords

Passwords used to access the TIME/NCIC Systems must meet criteria to be secure passwords. Passwords must be at least 8 characters, must not be a dictionary word or proper name, and cannot be the same as the userid. Passwords must expire at least every 90 calendar days and cannot be identical to the previous ten passwords used. Passwords cannot be displayed on screen when entered, and must not be transmitted in the clear outside the secure location. Users should protect their passwords and not share them with anyone.

System users should be aware of subjects attempting to obtain computer system access or password/login information by using ‘social engineering’. Social engineering means manipulating people into doing something or divulging confidential information. This may include emails from
unknown sources, email attachments containing spyware programs, telephone callers purporting to be from another authorized agency, etc. When in doubt, system users should verify the source or identity behind the email, telephone call, etc. before potentially misusing system resources or providing criminal justice information to unauthorized subjects.

**Proper Handling of Criminal Justice Information**

Information obtained via the TIME/NCIC systems, whether in paper form or saved digitally, must be stored in a secure area inaccessible to the public.

Criminal justice information obtained from the TIME/NCIC Systems should remain in the secure area unless there is specific authorization and procedures for taking the information out of the secure area. When TIME/NCIC information (paper or digital) is transported outside of the secure areas it must continue to be protected, thus transport of TIME/NCIC information is restricted to authorized personnel.

TIME/NCIC information must be securely disposed of when no longer needed. Destruction of paper information may be accomplished by shredding, incineration, etc. Digital media storing TIME/NCIC information (hard drives, flash drives, CD’s, etc.) must be sanitized or degaussed using approved sanitizing software that ensures a minimal 3-pass wipe. Inoperable digital media should be destroyed (cut up, smashed, shredded, etc.). The disposal or destruction of TIME/NCIC information must be witnessed or carried out by authorized personnel to avoid the possibility of inadvertent release of system information to unauthorized persons.

**Dissemination of Criminal Justice Information**

Any individual authorized to use the TIME/NCIC System who receives a request for system information from another individual must ensure the person requesting the information is authorized to receive the data. The correct Originating Agency Identifier (ORI) must be used in each transaction to identify the agency receiving the information to ensure the proper level of access for each transaction.

Each data service has its own rules for secondary dissemination of records, which may include requirements for logging, identification of the purpose of the request, and identification of the specific individual receiving the record. Most records may be legitimately disseminated to another criminal justice employee/agency when the purpose of the request is criminal justice related.

Any secondary dissemination of this information must meet state and federal statutes and/or regulations.

Criminal justice information obtained from the TIME/NCIC Systems may not be included in an internet email transmission unless the email is encrypted to the FIPS 140-2 standard. When email contains sensitive information, it should be standard practice to label those items as well.

Voice transmission of criminal justice information (via police radio, cellular phone, etc.) is exempt from the encryption and authentication requirements when an officer determines there is an immediate need for the information in a situation affecting the safety of the officer or the general public, or the information is needed immediately to further an investigation.
FAX transmission of criminal justice information is acceptable with certain encryption specifications. Fax transmission of criminal justice information over a standard phone line is exempt from encryption. If a facsimile server, application of service which implements email-like technology to send CJI to an external physically secure location, encryption requirements for CJI in transit must be met.

**Security Incidents & Response**

A security incident is a violation or possible violation of policy that threatens the confidentiality, integrity or availability of criminal justice information. There has been an increase in the number of accidental or malicious computer attacks against both government and private agencies, regardless of whether the systems are high or low profile.

Indicators of a security incident may include system crashes without a clear reason, new files with novel or strange names appearing, changes in file lengths or modification dates, unexplained poor system performance, etc.

Personnel should know how to report a security incident, who to report an incident to, when to contact that person, and what basic actions to take in case of a suspected compromise of the system. This may include contacting a supervisor, contacting on-call information technology staff, disconnecting the affected computer from the network, etc.

Agency staff should document any security incidents/possible security incidents, and promptly report incident information to the Crime Information Bureau. Evidence of the security incident may need to be collected and retained to conform to the rules of evidence in case of legal action (either civil or criminal).

Agencies must monitor physical access to the information system to detect and respond to physical security incidents, and where ever feasible the agency shall employ automated mechanisms to make security alert and advisory information available throughout the agency as appropriate.

**Virus/Spam/Spyware & Malicious Code Protection**

To ensure information security, agencies connecting to the TIME/NCIC Systems are required to have in place malicious code protection, virus protection, spam protection and spyware protection. Users should be cautious when downloading internet content or clicking on web-based pop-ups/windows, unknown emails, email attachments or embedded objects. Removable devices such as flash drives, CDs, etc. may also possibly introduce viruses/malware and caution should be used before they are introduced to the system. Follow your agency’s policies regarding use of such items.
Technical Considerations

Mobile Devices – Handheld Devices, Laptops, etc.

As digital handheld devices continue to become more integrated into the mobile workforce, security measures must be employed since such devices may be used outside of physically secure locations. Wireless devices, even in physically secure areas, are susceptible to penetration, eavesdropping and malware. Furthermore, compromised or lost wireless devices may introduce risk to the overall security of an agency’s network, criminal justice information and/or the TIME/NCIC Systems. The use of digital handheld devices and/or laptops to access TIME/NCIC information is allowed, provided the agency implements the security requirements for such access as outlined in the CJIS Security Policy. This may include mobile device management, advanced authentication, encryption, security-related updates, official use guidance, data at rest encryption, and prevention of data compromise in case of possible loss of the device. The requirement to use or not use advanced authentication is dependent upon the physical, personnel and technical security controls associated with the user location as specified in the CJIS Security Policy.

Personally owned information systems shall not be authorized to access, process, store or transmit criminal justice information unless the employing agency has established and documented policies and procedures for such use. All devices must be authorized and must meet the requirements set forth by the CJIS Security Policy.

A personal firewall must be employed on all devices that are mobile by design (i.e. laptops, handhelds, personal digital assistants, etc.).

Mobile devices used to access the TIME/NCIC Systems may be agency owned or personally owned. Personally owned equipment used to access the TIME/NCIC Systems or used to access data obtained from those systems must meet all the requirements set forth in the CJIS Security Policy. Agencies wishing to use personally owned devices for system access must first document the specific terms and conditions for such use. Such documentation should consider licensing issues, agency control, security requirements, and sanitization of the device if the owner no longer carries out law enforcement duties, etc.

Account Management

User logins/accounts should be kept current, when a user is terminated, leaves employment or job duties no longer require TIME/NCIC System access the user’s system account must be disabled. An agency must validate system accounts at least annually.

User TIME/NCIC accounts will be assigned according to the principle of ‘least privilege’. Least privilege means giving a user account only those privileges, which are essential to perform assigned duties. Assigned authorizations will control access to the system and system information.

Users may only have one active computer session accessing the TIME/NCIC Systems at a time. Multiple concurrent active sessions for one user are prohibited unless the agency can document a business need for such multiple session access.
System Updates

Malicious code protection, virus protection, spam protection and spyware protection must be in place at critical points throughout the networks and on all workstations, servers, and mobile computing devices on the network. Malicious code protection must be enabled, and must include automatic updates for all systems with Internet access. Agencies with systems not connected to the Internet must implement local procedures to ensure malicious code protection is kept current (i.e., most recent definitions update available). Resident scanning must be employed.

Agencies must monitor applications, services, and information systems containing software or components affected by recently announced software flaws and potential vulnerabilities resulting from those flaws. System patches shall be installed in a timely manner.

Backup & Storage Procedures

Agencies must consider the requirements for secure storage of electronic media and hardware containing criminal justice information, and ensure that such backup procedures, archiving, and storage, whether centralized or de-centralized (off site) meet the security requirements outlined in the CJIS Security Policy.
TIME SYSTEM SANCTIONS POLICY

The TIME Advisory Committee has approved the following sanctions. The Crime Information Bureau (CIB) is the CJIS Systems Agency and will:

Cancel the records of a TIME System user who has not completed the 30-day validation certification.

Deactivate the ORI of an agency that fails to comply with triennial audits.
   1. Verbal request from CJIS Systems Agency (CSA) to comply
   2. Written request from CJIS Systems Officer (CSO) to comply
   3. Written notice of intent to deactivate ORI
   4. Written notice of deactivation

Deactivate an individual’s access who fails to meet training and certification requirements.

Deactivate the ORI of an agency that fails to pay TIME System fees.
   1. Verbal request from CJIS System Agency to comply
   2. Written request from CJIS Systems Officer to comply
   3. Written notice of intent to deactivate ORI
   4. Written notice of deactivation

Take other administrative action appropriate to particular circumstances when necessary, to protect system integrity or public safety.

If an agency observes or notes a possible security problem contact should be made as soon as possible with the TIME System Control Center who will notify the Wisconsin Information Security Officer (ISO).

TIME SYSTEM CONTROL CENTER

Every state has a Control Center that is responsible for operating and maintaining its law enforcement telecommunications system 24 hours a day, seven days a week. The Control Center is also responsible for monitoring transactions being sent on the system, as well as assisting agencies with problems they may be experiencing with their terminals.

Wisconsin's Control Center is located in the Justice Center in Madison and is called the TIME System Control Center (TSCC). If an agency needs to contact the Control Center, they can send an administrative message using the destination mnemonic "TSCC", or by calling (608) 266-7633.

There are certain transactions that can only be sent by "TSCC". Some of these are: Locate placements, All Points Broadcasts and INFO broadcasts.

If an agency needs to contact another state's Control Center, they can do so by sending an administrative message using that state's two character state code as the destination; e.g., "MN", "IL", etc. If a message needs to be sent to the Canadian Control Center, use "CN" as the destination.

ADMINISTRATIVE MESSAGES

The following types of administrative messages are **PROHIBITED**:

1. Announcements of social affairs, retirement parties and/or labor-management affairs, as well as seasonal goodwill messages.

2. Messages supportive or in opposition to political issues, labor-management issues, legislative bills or announcements of meetings relative to such issues.

3. Messages relating to the advertisement of equipment for sale.

4. Messages relating to requests for information concerning recruitment of personnel, job announcements, interviews, salaries, uniforms, personnel or other related items which can routinely be obtained by correspondence or other means.

5. No routine broadcasts of wanted/missing persons or stolen property if can be entered into NCIC.

7. No NLETS training messages that include the name of a company that is providing the training unless the company is not-for-profit and is providing a direct service. Training announcements may be sent using regional broadcast codes to states in geographical proximity of the sender only.

8. Requests for/replies to requests for criminal history record information.

9. Excessively long messages or messages that are incomplete (contain insufficient information for action requested).

10. Attempt to locate vehicle for breach of trust (without a warrant).

11. Messages regarding stolen property when the complainant is only seeking recovery of the property.
ALL POINTS BROADCASTS (APBD’s)

TIME System users do not have the capability to send statewide messages, otherwise known as all points broadcasts (APBDs). All requests for nationwide or statewide APBDs MUST be directed to the TIME Control Center (TSCC) and must be of significant importance to law enforcement. The request for the APBD will be evaluated and approved if the message falls within one of the following categories.

If your agency needs to request a broadcast in a specific state, send a message to that state's control terminal. For Canada-wide broadcasts, the request must be sent to INTERPOL in Washington, D.C. (DCINTER00). If an out-of-state agency contacts your agency requesting a broadcast, refer them to TSCC.

CATEGORIES OF APBD

1. Death or aggravated battery to law enforcement officials involving a person at large. An adequate physical description of any suspect and/or vehicle is required. “Adequate” means enough information to recognize the person or vehicle if seen.

2. Felonies involving armed or believed to be armed fugitive(s). An adequate physical description of the fugitive and/or vehicle is required.

3. Escapees from custody. This includes all escapees from: officer custody, city and county jails, prisons, detention homes or centers, work camps, and juvenile facilities.

4. Death and funeral notices of actively or formerly employed law enforcement officials. Wisconsin APBD’s may also include public safety officials.

5. Attempts to Locate (ATL)
   Where foul play is suspected or known and is so specified. An adequate physical description of the person and/or vehicle is required.

   For death or serious illness message delivery only if the direction of travel is unknown. If the direction of travel is known, the requesting agency must send messages to the specific agencies along the route of travel (an area/highway broadcast may be used under appropriate circumstances).

6. A missing person or runaway will not generally be sent state or nationwide as an attempt to locate.

7. Found unidentified bodies or body parts must be entered into NCIC prior to the broadcast request.
8. Severe weather warnings and disaster alerts.

9. Information that has statewide or nationwide law enforcement significance.
   Description of the method of operation (M.O.) requesting information on similar cases or alerting other agencies to be aware of the same.
   Request for information on a person in custody refusing to cooperate by not giving name, etc. The requesting agency can ask for assistance based on a description of the person and circumstances surrounding the case.
   If the request concerns stolen property that cannot be entered into CIB/NCIC. The list of property items must have state or nationwide significance and be condensed into no more than 15 lines of text. Give general descriptions without listing all of the quantities.
   Any information that cannot be entered into CIB/NCIC and is pertinent to a criminal investigation that would be of interest to state or nationwide law enforcement agencies.
   If the APBD request falls within one of the regulations and there is information in the APBD that qualifies for entry into any of the data files, the APBD will not be approved until the applicable data has been entered into CIB and/or NCIC.

The restrictions listed above have been adopted for APBDs. Recognizing that there may be circumstances where the seriousness of the situation overrides the normal policy prohibitions, the restrictions may be waived under the following conditions:

- A user has information that is pertinent to a criminal investigation that is of interest to all states and cannot be entered into NCIC.
- A user has information regarding kidnapping, skyjacking or other serious criminal acts.
- A user has information on a wanted person that cannot be entered into NCIC but is of interest to all states.
GENERAL BROADCAST AREAS

The state has been divided into geographical areas for TIME System messages (listing is by county but includes all jurisdictions with TIME access within the county). All areas include the TIME System Control Center (TSCC) automatically. Agencies may send messages to multiple area destinations, but to no more than eight. Mobile terminals may not initiate area broadcasts. Use the four-character mnemonic following the area name to send administrative messages to all agencies listed in the area.

The same categories and rules used for all points broadcasts are to be used when considering an AREA broadcast; the difference being that the information in the message pertains to a specific area of the state rather than having state or nationwide significance.

In addition to the general prohibitions listed earlier, the following restrictions apply for the use of in-state area broadcasts: No broadcasts for routine stolen or lost license plates. All announcements of training being hosted or sponsored by the originating agency must be sent to the broadcast area TRNG. An agency may transmit up to three training announcements for each training session to be held. The receipt of TRNG training broadcasts is entirely voluntary. Your TIME Agency Coordinator (TAC) can request to have terminals added or removed from the TRNG broadcast group. Messages seeking jail bed space or notifying agencies of the availability of the same must use area sheriff’s broadcast mnemonics.

The area broadcast can be sent by an individual agency, it is not to be requested through TSCC.
Administrative messages must follow a specific format. The following are the various parts of the administrative message:

Header: Destination – directs the message to its proper destination. The header consists of the destination agency Mnemonic, Physical Station Number (PSN) or NCIC Agency Identifier (ORI).

Attention: Designate whom in the department the message is intended for. Messages may be directed to a specific section or person within that department.

Reference: General purpose of the message. May also be used when there have been previous messages on the same topic or situation. List the original message number(s) and date(s). When sending an administrative message, Portal 100 software users may designate their message as ‘urgent’ by simply typing the word URGENT as the first item in the reference line of the message. Hit confirmation requests and responses will always carry an ‘urgent’ notifier. Designating a message as ‘urgent’ will cause an audible noise to be played when the message is received at another terminal. In addition, there will be a visual notification displayed on the receiving terminal indicating an urgent message has arrived.

Message Text: Body of the message. Be brief, but give complete details and describe the action requested. Avoid the use of ten codes and sayings like “BOLO” or “Stop and Advise.” Persons or property that qualify for entry must be entered into the data files prior to sending an administrative message pertaining to them.

When sending an emergency message that requires immediate action on the part of the receiving agency, an acknowledgement of the receipt of the message should always be requested. The request for receipt of acknowledgement should be included in the text of the message. If an acknowledgement is not received within a reasonable amount of time, follow-up contact should be made with the receiving agency to ensure the message was received. Keep messages as brief as possible.

Authority: The complete name of your department (Include city, state and your agency’s NCIC Agency Identifier for out-of-state messages).

Operator: The individual sending the message.

**IN-STATE**

**SINGLE DESTINATION**
- One destination Mnemonic or Physical Station Number (PSN). Messages sent to a mobile terminal must be addressed by physical station number (PSN).
- Uses: Message to specific agency or terminal; e.g., "TSCC," "DASO," "1856". Message to an AREA/HIGHWAY/TRANSPORT; e.g., "SCAR", "NWAR".
- Mobile terminals may send messages to one terminal only.

**MULTIPLE DESTINATIONS**
- Maximum of ten destination Mnemonics and/or PSN’s.
- Uses: Message to multiple specific agencies. Message to multiple AREAS/HIGHWAYS/TRANSPORT, up to 8.

**SINGLE DESTINATION TO NON-TERMINAL AGENCY**
- One destination NCIC Agency Identifier.
- Use: Message is routed to the agency that handles TIME system functions for the on-terminal agency.

**OUT-OF-STATE:**

**MULTIPLE DESTINATIONS**
- Maximum of ten destination NCIC Agency Identifiers.
- Use: Message to specific out-of-state (including Canadian) agencies.

**COMBINATION IN-STATE AND OUT-OF-STATE/CANADA:**
- Maximum of ten destination Mnemonics, PSN's and NCIC Agency Identifiers.
- One in state and one out-of-state or Canadian destination required.
  - Use: Message to in-state & out-of-state and/or Canadian agencies, e.g., Attempt to Locate in Superior, WI (SUPD), Duluth, MN (MN0690600) and Toronto, Ontario (ON3057000).

**NLETS STATES/REGIONS AND CANADIAN PROVINCES**

**MULTIPLE DESTINATIONS**
- Maximum of five two-character state, region or Canadian destinations.
- Message is routed to the Control Center of specified state(s) or Canada.
- Uses: APBD request to specific state(s) (not including Canada).
  - Request for additional information. Assistance in interpretation of records.
NLETS REGIONS

Nlets has divided the states, possessions and territories of the U.S. into eight regions. When a region code is used, the message will be directed to the State Control Center of each of the states within that region. The Control Center will then direct the message to the proper terminals. Requests for APBD's can be sent to regions. Region codes may also be used (instead of two character state codes) for drivers license queries by name, sex, race and date of birth and vehicle registration queries by vehicle identification number or license plate number.

NOTE: A license plate query containing a region code in the License Plate State Field will be rejected by NCIC for stolen status. Each state registration file within the region will respond with a positive or negative response. Once the state of registration is determined, it should be re-queried to NCIC to check stolen status.
IN-STATE MANUAL TERMINALS

Normal business hours are Monday-Friday 7:45 a.m. to 4:30 p.m.

DEPARTMENT OF TRANSPORTATION VEHICLE SECTION
- "Provides "alpha checks" (RHAS-registration history abstract of vehicles listed to a subject). Minimum data: last name, first name and last known address or general address area. Provide as much data as possible for proper identification. Alpha checks, etc. are available using eTIME’s open search feature, which is available 24x7. Please use the open search feature if possible prior to contacting DOT.

DEPARTMENT OF TRANSPORTATION DRIVER'S LICENSE SECTION
- Provides certified copies of driver’s records through WILENET (usually associated with court case). Requires: full name, sex, race, date of birth, driver’s license number, date of violation and court date.
- "To retrieve additional data or an explanation of the data (DHAS–driver history abstract). Minimum data needed: last name, first name, sex, approximate age, last known address, general address area and driver’s license number if known. Partial license plate searches, etc. are available using eTIME’s open search feature, which is available 24x7. Please use the open search feature if possible prior to contacting DOT.

DEPARTMENT OF NATURAL RESOURCES RECORDS SECTION
- Provides additional information on snowmobiles, ATVs and boats, including interpretation of DNR responses. May also be reached by telephone from 7am-10pm at 1-888-936-7463.

DEPARTMENT OF NATURAL RESOURCES LAW ENFORCEMENT DIVISION
- Provides information pertaining to rules and regulations (hunting, fishing, licenses, etc.). May also be reached by telephone from 7am-10pm at 1-888-936-7463.

*After hours emergency requests, send to the State Patrol District in your area.
NLETS HELP FILES

The HELP Files are computerized informational messages prepared and updated by each state and housed at the Nlets computer. They advise the fields and codes required to access records in the different files, as well as provide an explanation and sample of how the files work and the output received. There are multiple HELP Files that can be accessed by using the appropriate file destination.

1. **XXOLNHELP** - DRIVERS LICENSE INFORMATION
2. **XXLICHELP** - VEHICLE REGISTRATION INFORMATION
3. **XXBASHELP** - BOAT AND SNOWMOBILE INFORMATION
4. **XXSIRHELP** - CRIMINAL HISTORY RECORD INFORMATION
5. **NLSIRHELP** - STATES PROVIDING AUTOMATED CRIMINAL HISTORY
6. **NLFLYHELP** - OFFICERS FLYING ARMED INFORMATION
7. **NLLPRHELP** - NLETS LICENSE PLATE RECOGNITION INFORMATION
8. **NXWTHHELP** - STATE PROVIDING AUTOMATED ROAD/WEATHER INFO
9. **XXGUNHELP** - CONCEALED CARRY INFORMATION
10. **XXSWQHELP** - STATE WANTED QUERY INFORMATION
11. **NLTSTHELP** - NLETS TEST RECORD INFORMATION

(The **XX** at the beginning of the ORI should be replaced with the two character state code.)

NLETS STANDARD ORIs

The following are manned terminals in each state that can be accessed when requesting additional information, explanations or copies of records. These terminals may be accessed by administrative message, using the appropriate Nlets Standard ORI as the destination:

1. **XXOLN0000** - DRIVER'S LICENSE RECORD INFORMATION
2. **XXLIC0000** - VEHICLE REGISTRATION INFORMATION
3. **XXVIN0000** - VEHICLE IDENTIFICATION NUMBER INFORMATION
4. **XXBOAT0000** - BOAT REGISTRATION INFORMATION
5. **XXSNOW0000** - SNOWMOBILE REGISTRATION INFORMATION
6. **XXSIR0000** - CRIMINAL HISTORY RECORD INFORMATION
7. **VAFAM0199** - LEO FLYING ARMED
8. **VANV005V** - NATIONAL VEHICLE SERVICES
9. **DCFBIWA00** - NCIC CONTROL
10. **DCINTER00** - INTERPOL (Washington, D.C.)
11. **ON100590** - CPIC CONTROL/INTERPOL (Ottawa, Canada)
12. **NL00000000** - NLETS COMMAND (Phoenix, Arizona)

(The **XX** at the beginning of the ORI should be replaced with the two character state code.)

PERSON SEARCH TECHNIQUES

Query on: SMITH/JOHN/JOSEPH, MALE/WHITE, 01/01/50

NCIC

Soundex on Last Name – Users have the capability to expand the name search. If requested and both name and DOB are specified as search criteria, then each name part in the inquiry will be used as a surname, interchanging the remaining names as given names.

If the last name contains a hyphen (-), primary hits are determined by using each hyphenated name part as a last name as well as all combinations of the hyphenated name part. For example, a surname of Saenz-Parada-Lopez will be searched as Saenz-Parada-Lopez, Saenz-Lopez-Parada, Lopez-Parada-Saenz, Lopez-Saenz-Parada, Parada-Lopez-Saenz, Parada-Saenz-Lopez, Saenz, Parada, and Lopez.

Sex is sent to NCIC as unknown.

Exact match on month, day and year of birth with the capability to expand the DOB search. If requested the search will return records with the exact date of birth of the inquiry as well as records with the exact month and day and a range of plus or minus 1 year of the date of birth.

NOTE: If the person is suspected of being a terrorist member and if a no record is produced on the initial query, the same query should be conducted using the default DOB of 01/01/ (exact year of birth) and one additional numerical identifier. Discretion should be used in making a determination as to whether the individual in question is in fact the subject of an NCIC record.

If W race code is used, will search all races except B, if B race code is used will search all races except W. If any other race code is used, will search all race codes.

CIB

Soundex on Last Name and First Name.
Exact match on Sex.
Date of birth plus or minus one year.

DOT

Converts the Last Name, First Name, Middle Initial, Sex and Date of Birth to the Driver’s License Number. Search is then conducted on the first three segments of the Driver’s License Number.

DNR

Exact match on Last Name, First Name and Date of Birth unless wild card character is used.

DOC

Soundex on all names.
Exact match on Sex.
One year either side of year of birth.
WANTED PERSON QUERIES

Warrant/Wanted Person File

Four different options for querying the NCIC wanted person file are available. The default setting is all felonies & misdemeanors. Operators may choose what NCIC wanted person records are returned based on the type of warrant (felony/misdemeanor) and the extradition limitations field.

- **All Felony & Misdemeanors** - selecting this option will return all felony and misdemeanor records regardless of extradition. Not all records included may be actionable by the inquiring agency; however, the information returned may provide investigative leads.

- **All Felony & Extraditable Misdemeanors** - selecting this option will return possible extraditable misdemeanor records and all felony records.

- **Extraditable Felony & Misdemeanors** - selecting this option will limit responses to felony and misdemeanor records that are possibly extraditable.

- **Felony Only** - selecting this option will limit responses to only felony records regardless of extradition.

State Wanted Query

System users may also query another state’s in-state only wanted person database.

Why would a Wisconsin agency care about these wanted person entries, as they can’t take any enforcement action, since the warrants are non-extraditable?

While this information may not be valuable to an officer on a routine traffic stop, there are situations in which simply knowing the subject is wanted by an agency in another state may prove helpful to law enforcement personnel. For example, during criminal investigations or employment background checks it may be beneficial to law enforcement to know that outstanding warrants exist in other states. For example, an individual could be wanted in Illinois for the same offense they are being investigated for in Wisconsin, leading to contact between the two agencies proving beneficial to both.

The Portal 100 and eTIME browser software include the ability for Wisconsin users to query other states in state warrants if that state supports these transactions. A query of the Nlets Help File, NLSWQHELP, will indicate which states participate.
The following header may be found on any NCIC person record to advise when the subject of the record has been known to use or possess stolen or false identification documents. This is for informational purposes only.

WARNING - THE SUBJECT IDENTIFIED IN THIS RECORD NIC/W30XXX0846 IS KNOWN TO USE THE FOLLOWING STOLEN OR FALSE (S/F) IDENTIFICATION DOCUMENTS. USE CAUTION IN VERIFYING THE IDENTITY OF THIS PERSON.
S/F NAM/IDENT,FALSE
S/F NAM/PUBLIC,PETER
S/F DOB/19010201
S/F DOB/19020101
S/F SOC/777XX0000
TIME System Access:

Questions about records from out-of-state users should be directed to WisDOT at terminal "WI013075V" for driver licensing or "WI013035V" for vehicle licensing and titling (not 24 hour terminals). Between 4pm-8am weekdays and on weekends questions should be directed to DOT at terminal “WIWSP0000”.

Access to these files is for criminal justice purposes only due to the confidentiality of many record entries. The requirement for completion of the Federal Driver Privacy Protection Act (MV2896) form makes it necessary for other persons or agencies to deal directly with DMV.

DOT Law Enforcement Hotline Telephone Numbers:

Hotline telephone numbers are specifically designed to provide front of the line service to law enforcement personnel.

Under no circumstances should these hotline numbers be provided to anyone other than those it is meant to serve.

Driver licensing questions: Email cibtrain@doj.state.wi.us for the phone number.

Vehicle questions: The Bureau of Vehicle Services does not have a hotline designated for law enforcement. Urgent requests that cannot be fulfilled using TIME or the open search feature of eTIME should be sent to terminal WI013035V, WIWSP0000, or mnemonic WREG. WisDOT requests that agencies use eTIME’s Open Search capabilities for searching for owned/leased vehicles by owner’s name.

Non-urgent record requests: Refer to http://wisconsindot.gov/Pages/dmv/license-drvs/rcd-crsh-rpt/records.aspx.

Self-service options for customers to obtain their own vehicle records or vehicle restriction information is available at http://wisconsindot.gov/Pages/online-srvcs/online.aspx.

Vehicle Information Search for Emergency (VISE): DOJ provides this capability to law enforcement; however, according to policy DMV will fulfill requests it receives. To obtain information when only partial vehicle or plate information is available, send an administrative message to WI013035V or WREG with the following:

1. Reason for request
2. Phone number and email of requesting agency/law enforcement personnel
3. Area(s) to check (county, region, etc.)
4. Criteria to search by/for (vehicle make, body style, partial plate number, etc.)
Non Criminal Justice Agency Access to DOT Information:

Access to vehicle registration and driver’s license files via the TIME System is for criminal justice purposes only due to the confidentiality of many record entries. The TIME System can be accessed by law enforcement agencies and personnel for law enforcement purposes only. By the FBI's definition, non-criminal justice agencies, i.e., fire departments are not law enforcement.

While fire departments and other governmental agencies may be allowed to access vehicle registration and driver’s license information under the Federal Driver Privacy Protection Act, the TIME System may not be used for these purposes. Some government agencies that are responsible for enforcing laws or ordinances may be eligible for an “S” ORI to inquire on vehicle records only. Other governmental agencies, including fire departments, who require access to WisDOT files, should be advised to contact WisDOT directly.

Public Access:

Any requests for a driver record from the public should be referred to WisDOT. Customers may access their own driver or vehicle abstract online at http://www.dot.wisconsin.gov/drivers/online.htm.

If the customer does not have internet access or is requesting the record of another person, the customer should complete a Vehicle/Driver Record Information Request (MV2896) form and mail their request to the address on the form. Form MV2896 is available at the Internet address of: http://www.dot.wisconsin.gov/drivers/forms/mv2896.pdf. A fee is required for each paper record whether a record is found or not.

Agencies and businesses interested in starting an account to order abstracts online can call (608) 266-0928 for information about the Public Abstract Request System (PARS).
Wisconsin Driver’s License Photos

Wisconsin driver’s license photos are available via the TIME System to Wisconsin law enforcement agencies, federal law enforcement agencies, and law enforcement agencies of other states for the purposes of the administration of criminal justice and for traffic enforcement. According to the definitions included in the law, district attorney’s offices, Department of Corrections offices and facilities, social service agencies, etc. are not considered law enforcement agencies, and thus the TIME System will block access to Wisconsin driver’s license photos by these types of non-law enforcement agencies.

Portal 100 software contains a field on numerous transactions, the ‘DOT Image Indicator’ field. A ‘Y’ for yes placed in this field will return an available driver’s license photo to the requestor via the TIME System. In addition, if a Wisconsin driver’s license photo is requested, purpose code and reason/attention line fields are required; specifying why the photo was requested and who specifically will be receiving it.

Each Wisconsin driver’s license photo returned via the TIME System will come with a warning caveat attached:

THIS PHOTOGRAPH IS SUBJECT TO THE REQUIREMENTS AND RESTRICTIONS OF SECTION 165.8287 OF THE WISCONSIN STATUTES. THE PHOTOGRAPH SHALL NOT BE USED FOR ANY PURPOSE OTHER THAN THE ADMINISTRATION OF CRIMINAL JUSTICE OR TRAFFIC ENFORCEMENT. SECONDARY DISSEMINATION IS PROHIBITED AND THE PHOTOGRAPH SHALL BE DESTROYED WHEN NO LONGER NECESSARY FOR THE PURPOSE REQUESTED. THE PHOTOGRAPH SHALL NOT BE USED AS PART OF A PHOTO LINEUP OR PHOTO ARRAY.

Any photograph obtained electronically by a law enforcement agency under this subsection may not be used for a photo lineup or photo array.
FULL vs. SUMMARY DRIVER’S RECORDS

The TIME System allows inquiries of summary and full driver’s records. A summary record contains all identifying information including status, but without the driver’s violation record. When querying a Wisconsin driver record you automatically receive a full driver record from WisDOT. Full driver’s records maybe available from other states if requested using the appropriate transaction.

Some states support the full record query by name, sex, race and date of birth or driver’s license number only. The Help file will advise the particular requirements for each state. If a state does not support the full driver’s record inquiry you may receive a “NO RECORD” response from that state. A query specifically requesting the summary record may be required. CIB recommends a query of the state HELP file to determine if the state will accept a request for the individual's full driving record.

***DO NOT DISSEMINATE OR USE FOR LICENSING AND EMPLOYMENT PURPOSES***
The Immigration and Customs Enforcement Service created and maintains a file on immigration violators. This file will contain records for three different response categories:

1. **Deported Felon**: Persons convicted of a felony related to drug trafficking, firearms trafficking, or serious violent crimes and that have been deported for these convictions.
2. **Absconder**: Persons with outstanding warrant for removal from the United States.
3. **NSEERS**: Persons who are subject to monitoring through the National Security Entry Exit Registration System.

One of these three headers will appear on the immigration response:

**DEPORTED FELON RESPONSE HEADER**

WARNING REGARDING FOLLOWING RECORD – SUBJECT OF NIC/N681127856 IS A PREVIOUSLY DEPORTED FELON. CONTACT LESC AT (877) 999-5372 FOR IMMEDIATE HIT CONFIRMATION AND AVAILABILITY OF BUREAU OF IMMIGRATION AND CUSTOMS ENFORCEMENT DETAINER.

**ABSCONDER RESPONSE HEADER**

WARNING REGARDING FOLLOWING RECORD – SUBJECT OF NIC/N682337856 HAS AN OUTSTANDING ADMINISTRATIVE WARRANT OF REMOVAL FROM THE UNITED STATES. CONTACT LESC AT (877) 999-5372 FOR IMMEDIATE HIT CONFIRMATION AND AVAILABILITY OF BUREAU OF IMMIGRATION AND CUSTOMS ENFORCEMENT DETAINER.

**NSEERS RESPONSE HEADER**

WARNING REGARDING FOLLOWING RECORD – SUBJECT OF NIC/N682337876 HAS AN OUTSTANDING ADMINISTRATIVE WARRANT OF ARREST FOR IMMIGRATION VIOLATIONS FOR FAILURE TO COMPLY WITH NATIONAL SECURITY REGISTRATION. CONTACT LESC AT (877) 999-5372 FOR IMMEDIATE HIT CONFIRMATION AND AVAILABILITY OF BUREAU OF IMMIGRATION AND CUSTOMS ENFORCEMENT DETAINER.

Wisconsin law enforcement officers currently only possess the legal authority to enforce federal *criminal* immigration violations (and not federal *civil* immigration violations). As such, an officer only has the authority to arrest for an immigration violation when an NCIC hit confirmation shows that the subject is a Deported Felon or an Absconder. If the NCIC hit reveals that the subject is a NSEERS violator, the officer may continue to detain the subject only if the officer has reasonable suspicion or probable cause to believe that the subject has committed a violation of Wisconsin law.
IMMIGRATION VIOLATOR RECORD

WARNING REGARDING FOLLOWING RECORD - SUBJECT OF NIC/N070185716 IS A PREVIOUSLY DEPORTED FELON. CONTACT LESC AT (877) 999-5372 FOR IMMEDIATE HIT CONFIRMATION AND AVAILABILITY OF BUREAU OF IMMIGRATION AND CUSTOMS ENFORCEMENT DETAINER.

***LAW ENFORCEMENT SENSITIVE INFORMATION***
WARNING - APPROACH WITH CAUTION
THIS INDIVIDUAL IS OF INVESTIGATIVE INTEREST TO LAW ENFORCEMENT REGARDING ASSOCIATION WITH TERRORISM AND THERE MAY BE A DETAINER AVAILABLE FROM THE DEPARTMENT OF HOMELAND SECURITY FOR THIS INDIVIDUAL. IMMEDIATELY CONTACT THE TERRORIST SCREENING CENTER (TSC) AT (866) XXX-XXXX OR, IF YOU ARE A BORDER PATROL OFFICER, IMMEDIATELY CALL THE NTC TO ASCERTAIN IF A DETAINER IS AVAILABLE FOR THE INDIVIDUAL AND TO OBTAIN ADDITIONAL DIRECTION. PLEASE QUESTION THIS INDIVIDUAL TO ASSIST THE TSC IN DETERMINING WHETHER THE INDIVIDUAL ENCOUNTERED IS THE SUBJECT OF A DETAINER WITHOUT OTHERWISE EXTENDING THE SCOPE OR DURATION OF THE ENCOUNTER.
UNAUTHORIZED DISCLOSURE OF TERRORIST WATCHLIST INFORMATION IS PROHIBITED.
DO NOT ADVISE THIS INDIVIDUAL THAT THEY MAY BE ON A TERRORIST WATCHLIST.
INFORMATION THAT THIS INDIVIDUAL MAY BE ON A TERRORIST WATCHLIST IS PROPERTY OF THE TSC AND IS A FEDERAL RECORD PROVIDED TO YOUR AGENCY THAT MAY NOT BE DISSEMINATED OR USED IN ANY PROCEEDING WITHOUT THE ADVANCE AUTHORIZATION OF THE TSC.

The Consolidated Court Automation Programs (CCAP) provides access to certain public records of the circuit courts of Wisconsin. The information displayed is an exact copy of the case information entered into the CCAP case management system by court staff in the counties where the case files are located. The information provides the type of case, the parties, and any judgment that has been entered in the case. For criminal cases, a case summary is provided to show the current pending charges or the defendant’s conviction/acquittal status. Criminal cases, traffic, and ordinance violations also show a history of the charges against the defendant. A link to "court record events" provides the date of actions taken in the case, such as filing of the complaint or petition, pleadings, court appearances, and judgments. Individual courts vary in how much detail is entered for each court record event.

MENTAL HEALTH

A TIME System transaction has been created to allow law enforcement access to mental health records for the purpose of conducting background checks on individuals applying to become law enforcement officers. This transaction will only search the Mental Health records. Access to Mental Health records is available for all TIME System customers (eTIME, Portal 100, Server to Server).

Act 223 provides a statutory mechanism for the DOJ to provide courts and law enforcement agencies access to orders not to possess a firearm resulting from certain mental health proceedings. Prior law did not allow courts to access mental health orders when considering the return of firearms to restraining order subjects at the termination of those restraining orders; nor did prior law allow law enforcement officers to access mental health orders when investigating possible violations of the possession of firearms.

Access by Law Enforcement only for the purpose of conducting background checks on applicants for law enforcement officers.

RETURN OF FIREARM(S) TO LAWFUL OWNER

Acceptable by the Interstate Identification Index (III) and the state central repositories. Adult and juvenile records are accessible for this type of investigation.

Used by criminal justice agencies for the purposes of issuing firearms-related permits and explosives permits pursuant to state law, regulation, or local ordinance; returning firearms to their lawful owners; and enforcing federal and state laws prohibiting certain persons with criminal records from possessing firearms in circumstances in which firearms have been pawned.
Mandated by the Brady Handgun Violence Prevention Act of 1993 and administered by the FBI, the National Instant Criminal Background Check System, or NICS, is used by Federal Firearms Licensees (FFLs) to determine whether a prospective buyer is eligible to buy firearms. The NICS Index contains information provided by local, state, tribal and federal agencies of persons prohibited from receiving firearms under federal or state law. The NICS Index contains prohibiting information which may not be found in the NCIC or the III.

In 2014, changes were made to federal law allowing law enforcement agencies to access the NICS Index for purposes of conducting background checks prior to returning seized, stolen or abandoned firearms to lawful owners.

Law enforcement agencies accessing the NICS for the dispositions of firearms are able to search the prospective firearm transferees name and descriptive information against the records maintained in the III, the NCIC, and the NICS Index simultaneously. Agencies must have a valid ORI to access the NICS Index.

NICS-INDEX-END
On August 8, 2017, TIME System users were granted access to the National Instant Criminal Background Check System (NICS) Denied Transaction File (NDTF). This file shares information regarding individuals who have been disqualified from firearm possession under the Brady Act of 1993. This disqualification is based on federal law and state prohibitors reported to NCIC. The NICS Denied Transaction File is designed to enhance officer and public safety while also providing investigative leads.

The NICS Denied Transaction File contains records of individuals who have been denied a firearm, as a result of a NICS check, within the previous 180 days. These records are maintained by the FBI and if a “hit” exists it will be returned when you conduct any wanted person query. After 180 days, the file is purged from the system. If an individual’s NDTF record is canceled, it will be immediately removed from the system.

The return of a NICS Denied Transaction File response on a person query does not guarantee that the subject of the response is still prohibited from possessing a firearm. The response is solely informational and additional investigation should be conducted to confirm the continued restriction against possessing a firearm. The information in any NDTF response should never be used as a determination to detain or arrest the subject of a response.

NICS Denied Transaction File Response

*****NOTICE: DO NOT DETAIN OR ARREST BASED ON THIS HIT. THE DATE OF NATIONAL INSTANT CRIMINAL BACKGROUND CHECK SYSTEM (NICS) DENIAL (DND) PROVIDED IN THIS RECORD IS THE DATE THE SUBJECT WAS DENIED BY THE NICS FROM THE RECEIPT AND/OR THE POSSESSION OF A FIREARM OR THE ISSUANCE OF A FIREARM OR EXPLOSIVES PERMIT PURSUANT TO STATE AND/OR FEDERAL LAW. HOWEVER, IT IS POSSIBLE THIS SUBJECT MAY NO LONGER BE A PROHIBITED PERSON.

VEHICLE FILE

For query purposes, a vehicle is defined as any motor-driven conveyance designed to carry its operator. In addition to conveyances meeting this definition, trailers are also queried in this file. The one exception to this definition is a boat, which would be queried in the Boat File. Examples include construction equipment, farm tractor, motorized wheel chair, snowmobiles, all-terrain vehicles, boat trailer and utility trailer.

Possible stolen or missing license plates are also queried in the Vehicle File.

VEHICLE QUERIES

QUERY ON:                              FILES SEARCHED:

Wisconsin License Plate Number,        DOT,CIB,NCIC
Plate Type (Optional), Year of Expiration

Out-of-State License Plate Number,     NLETS,CIB,NCIC
Plate Type, State of Registration, Year of Expiration

U.S. Government License Plate Number,  NLETS, CIB, NCIC
Plate Type, State of Registration, Year of Expiration

Disabled Parking Permit Number         DOT, NCIC

Vehicle Identification Number          DOT, CIB, NCIC
-if sent out-of-state

Owner Applied Number                   CIB, NCIC

NOTES: When querying a government vehicle for registration/stolen status the out-of-state query transaction with a plate type of “US” or a valid VIN must be used. The code of “GS” must be used in the “Destination State” field and “US” in the “State” field. If no record is received additional queries may be required using a valid two character state code in the “State” field.

Destination State: [GS]
License Plate: [enter the license plate information]
State: [US or the appropriate state for the second query]
Type: [US]
Year: [enter the appropriate year]

The Wisconsin Department of Transportation does not issue license plates with the alpha character of O. All Wisconsin license plates inquiries should contain the numeric of 0 instead of the alpha O.
Six Native American Indian tribes have a reciprocal registration agreement with the Wisconsin Department of Transportation, which allows residents living on the reservation to purchase tribal plates that are designed and issued by the tribe. These are the tribes and their respective Indian nation code.

- Bad River Band of Lake Superior Chippewa Indians - XC
- Lac Courte Oreilles Chippewa Band of Lake Superior Indians - WZ
- Lac du Flambeau Band of Lake Superior Chippewa Indians - LP
- Menominee Indian Tribe of Wisconsin - IX
- Oneida Nation of Wisconsin - OT
- Red Cliff Band of Lake Superior Chippewa - YH

Queries of tribal license plates through Wisconsin DOT will produce plate holder information excluding expiration data, while an inquiry by VIN through Wisconsin DOT will provide vehicle & owner information. The exception is Oneida tribal license plates. Queries of Oneida tribal license plates will return a standard WisDOT response.

Tribal license plates will require two queries to determine both the registration and the stolen status of the vehicle or license plate(s).

To obtain Wisconsin registration information you can run a standard Wisconsin vehicle query (0173) using the Type code of “TB” (Tribal) or leaving the type code blank.

License Plate: [enter the license plate information]
Type: [enter the TB (Tribal) or leave blank]
Year: [enter the appropriate year]

To obtain Out-of-State registration information you will run an Out-of-State vehicle query (0170). Follow the below steps for Out-of-State Tribal registration plates. Additional information may be available from each state's help file.

Destination State: [enter the appropriate state]
License Plate: [enter the license plate information]
State: [enter the appropriate Tribal Nation code]
Type: [enter the vehicle type]
Year: [enter the appropriate year]

To obtain NCIC responses, including stolen vehicles, a separate query (0174 - License Plate Only Query – CIB and NCIC) will need to be completed.

For eTIME Browser/S2S MACH, the second query will be conducted by performing a NLETS query using the appropriate region code. If the state is unknown, the “Region code for all states” can be used. Follow the below steps for NCIC responses:

NLETS: [enter the appropriate region code]
Registration Number: [enter the license plate information]
Type: [enter the vehicle type]
Year: [enter the appropriate year]
VEHICLE SEARCH TECHNIQUES

Query on: License Plate Number

NCIC  Search on license plate number and state of registration.  
      Alpha “O” converted to numeric “0”.

      **Felony Vehicle Search:** For felony vehicle records only, when a license plate is 
      queried through NCIC, NCIC will disregard the license plate state information and 
      search on the license plate number. This only affects records identifying felony 
      vehicles (vehicles used in the commission of a crime). The following caveat will be 
      included in a felony vehicle response:

      RECORD NIC/V123456789 IS BASED ON LIC SEARCH ONLY 
      (LIS NOT SEARCHED) VERIFY ALL DATA BEFORE TAKING FURTHER 
      ACTION BASED ON THIS RESPONSE.

CIB  Exact match on license plate number.

DOT  Exact match on license plate number. 
      Exact match on plate type. If no plate type code is submitted, search techniques will 
      be expanded to include all plate types.

DNR  Exact match on registration number.

Query on: Vehicle Identification Number

NCIC  Exact match on the last 8 characters.  
      Alpha "O" converted to numeric "0".

      If only the last 8 characters match, a caveat will appear above the record stating:

      RECORD NIC/V123456789 IS BASED ON PARTIAL VIN SEARCH - VERIFY ALL 
      DATA BEFORE TAKING FURTHER ACTION BASED ON THIS RESPONSE

CIB  Exact match.

DOT  Exact match.

**NOTE:** The TIME System allows inquiries of summary and full vehicle registration 
records. A summary record contains all the identifying information including status and who the vehicle is registered to. The complete record will also 
include lien information. When you query an out-of-state vehicle registration 
record you normally receive a summary vehicle record from that state’s DOT.

DNR  Exact match.

The National Insurance Crime Bureau (NICB) is a crime prevention organization assisting law enforcement in the prevention, detection, and prosecution of the financial crimes of theft, fraud, and arson relating to personal property. The National Insurance Crime Bureau is a not-for-profit organization that receives support from approximately 1,100 property/casualty insurance companies and self-insured organizations. The NICB partners with insurers and law enforcement agencies to facilitate the identification, detection and prosecution of insurance criminals.

NICB maintains a rapidly expanding national and international database of vehicle records. NICB tracks a motor vehicle’s complete life cycle from manufacture to demolition. The NICB database is designed to include vehicle liability, physical damage, and related homeowner claims. NICB files include data on passenger vehicles, multipurpose vehicles, trucks, trailers, motorcycles, snowmobiles, construction and farm equipment, boats, and uniquely identifiable parts. Information contained in the various NICB databases is contributed voluntarily by various partners. As such, the information NICB provides is solely an investigatory aid.

NICB provides automated access to twelve different files: Manufacturer’s Shipping File, Impound File, Export File, Salvage File, Auction File, Pre-Inspection File, Vehicle Claim File, Rental File, Theft File, International Index File, Theft (recovery file), and the NCIC/CPIC Canceled File.

These files may be accessed via two distinct types of inquiries. One will access only the Impound and Export files. The other will access the remaining NICB files. Access to these files is for investigative purposes only.

If only a partial vehicle identification number is available, the user may submit the last eight characters of the vehicle identification number, prefaced with the word ‘PARTIAL’. When a partial vehicle identification number is submitted, only the Manufacturer’s Shipping File will be searched.
PART FILE

A part is defined as any vehicle/boat component with a serial number or owner applied number. Examples of parts are: backhoe, hay baler, automobile engine, boat engine, transmission, battery, carburetor, vehicle identification plate, door, bumper, vehicle title document and jet pump.

Any item having a unique manufacturer assigned serial number and/or owner applied number and not meeting the definition of a vehicle, part, boat, gun or security may be queried in this file for stolen status. Examples of articles are: computers, televisions, bicycles, food stamps, oriental rugs and animals.

NOTE: Credit cards, bank drafts and checks, including cashier, certified, company, government (federal, state and local), bank officer, personal and U.S. Treasury, would not be found in the NCIC Article File or any other CIB/NCIC file.

GUN FILE

A gun is defined as any weapon, including a starter gun, which will or is designed to, or may be readily converted to expel a projectile by air, carbon dioxide, or the action of an explosive, may be queried in this file for stolen, lost or recovered status as long as it has a serial number and/or owner applied number. Examples are: shotguns, pistols, rifles, the frame or receiver of any such weapon, any firearm silencer, pellet guns, destructive devices such as grenades, mines, missiles and cannons.

NOTE: BB guns and paint ball guns are excluded from this definition and should be queried in the Article File. The manufacturers of BB guns are not bound by the same statutes as are manufacturers of above-mentioned weapons.

For NCIC purposes, a 3-round burst weapon is considered an automatic.

HIT CONFIRMATION

WHAT IS HIT CONFIRMATION?

Confirming a hit means to contact the agency that entered the record to:

1. Ensure that the person or property inquired upon is identical to the person or property identified in the record.

2. Ensure that the warrant, missing person report, protection order or theft report is still outstanding.

3. Obtain a decision regarding the extradition of a wanted person when applicable, information regarding the return of the missing person to the appropriate authorities, information on the conditions of a protection order or information regarding the return of stolen property to its rightful owner.

NOTE: If the CIB Firearms Unit conducts a firearms search (whether for a handgun purchase or a concealed carry permit) and the search results in a match to a wanted person record, protection order record, etc. they will send a hit confirmation request to the entering agency even though the subject is not in custody.

FIVE STEPS IN HIT CONFIRMATION

1. Check the computer results with the original query:
   - Ensure you are within any geographic restrictions/extradition limitations listed on the warrant entry.
   - Ensure the subject or item is in custody.

2. Check with the requesting person for additional information that may be included in, or may clarify the hit.

3. Check with the ORI to verify the record (10 Minute/1 Hour Hit Confirmation Rule):
   The ORI of the record must furnish a substantive response within the designated timeframe; i.e., a positive or negative confirmation or notice of the specific amount of time necessary to confirm or reject.
   - Urgent: Means the Hit must be confirmed or receipt of the request acknowledged within 10 minutes. Used in those instances where the hit is the only basis for detaining the suspect or the nature of a case requires urgent confirmation of a hit.
   - Routine: Means the hit must be confirmed or receipt of the request acknowledged within 1 hour. Generally, this priority will be used when the person is being held on local charges, property has been located under circumstances where immediate action is not necessary, or an urgent confirmation is not required.

4. Obtain hard copy documentation from the ORI on the results of the hit confirmation request.

5. Query all identifiable data not queried originally.

LOCATE

A Locate can only be placed AFTER Hit Confirmation has occurred.

The purpose of a locate message is to indicate (until the originating agency cancels the record) that the wanted person has been apprehended or stolen property has been located. If the ORI fails to cancel the NCIC record, the Locate will purge it within five days of placement. In the missing person file, a locate message indicates the whereabouts of the missing person has been determined and immediately purges the record from the file. If a CIB record is being located, TSCC will contact the ORI and explain why the locate is being placed against the record. TSCC will advise the ORI that they have approximately TWO hours to cancel the record. If the ORI fails to cancel the record within the time allotted, TSCC will cancel the record. This message is placed against a record that remains active in the system after hit confirmation has taken place. The locate message includes the date and time the person or property was located, as well as the name of the locating agency.

A locate message must be transmitted when an agency other than the originating agency of the record finds the missing person, apprehends the wanted person, or recovers the property on file in NCIC. It is recommended that a locate be placed against a CIB record after hit confirmation has taken place. **ALWAYS place a locate after going through hit confirmation on an NCIC hit.**

REASONS FOR PLACING A LOCATE

- Bond has been posted and the subject will be released but warrant is still entered. (NOEX)
- The ORI advises they will not extradite the subject, but the warrant has not been modified/canceled. (NOEX)
- The ORI advises they will extradite the subject, but the warrant has not been modified/canceled. (EXTR)
- The ORI advises to release the subject because the distance is too far or no personnel are available to transport, but the warrant has not been modified to reflect these geographic restrictions. (NOEX)
- The ORI advises to release the subject after giving him/her a new court date but the record remains in the system. (NOEX)
- Wanted person is being held on local charges / is incarcerated in prison. (DETN)
- Missing person is being detained and arrangements are being made for their return. (DETN)
- Missing person is not being detained and record has not been cancelled. (RELD)
- Property is recovered and is to be released with the record still in the system.
- Person or property is no longer wanted, missing or stolen and record has not been cancelled.
- Arresting/incarcerating agency refuses to place a locate and you want to add detainer data to the record.
- When ORI takes incorrect action.

** Prior to placing a Locate against a wanted person record, make sure that your agency is within any geographical restrictions indicated on the warrant. **

A Locate is placed against a record by contacting TSCC via administrative message (Portal 100 users may use form 1729). The message should advise:

1. The record to be located.
2. The reason for the Locate.
3. Your agency's case number assigned to this incident.

In one special circumstance, NCIC allows for cancellation and re-entry of a Located Record: Hit confirmation has taken place. The ORI wants the subject and will transport the subject from the locating agency’s state. The subject is released, awaiting extradition. In this case the ORI may cancel and re-enter the warrant record. The ORI should state in the remarks field "Do not arrest in (State of location); subject awaiting extradition."

SUBJECT'S IDENTIFICATION RECORD, INCLUDING CURRENT ARREST INFORMATION, IS AVAILABLE VIA THE INTERSTATE IDENTIFICATION INDEX. FOLLOW-UP ACTION BY YOU WITH THE ARRESTING AGENCY MAY BE APPROPRIATE.

CLEAR OR CANCEL YOUR NCIC RECORD WHEN SUBJECT NO LONGER WANTED.

FBI CJIS DIVISION
CLARKSBURG, WV
There are three levels of criminal history records. The first level is the local law enforcement agency (police department or sheriff’s office). A criminal history record is established at the local agency when an individual is arrested, booked in or a citation is issued to that person. The second level is the state central repository. In Wisconsin that is the CIB. The CIB will only establish a criminal record for someone when fingerprints are provided to the CIB from a Wisconsin law enforcement agency. If an agency does not fingerprint the individual or does not submit the fingerprints to the CIB, the arrest/conviction information will not be in the CIB database. The third level is the FBI and the same rules apply. They only have information in their database if a fingerprint card was sent to them from the contributing state. The Criminal History Record Information (CHRI) program provides for the exchange of criminal history information intrastate and interstate.

The following procedures have been adopted by the International Justice and Public Safety Information Sharing Network (Nlets) and comply with the U.S. Department of Justice Rules and Regulations (Title 28) affecting the interstate exchange of criminal history record information. The use of Administrative Messages for requesting and sending criminal history record information is a policy violation. Specific CHRI formats are to be used for this type of information exchange. Not all criminal history records are automated; some responses may be manually returned or sent via the U.S. mail.

The following policies apply to all Wisconsin Law Enforcement Agencies:

(1) All agencies requesting CHRI shall insure that proper controls are established such that only authorized criminal justice agencies and personnel can access CHRI.

(2) All agencies requesting CHRI shall insure that all authorized criminal justice agencies and personnel having access to the TIME System shall utilize specific formats for CHRI requests.

(3) All agencies providing CHRI shall insure that all personnel adhere to the approved operational procedures required for responding to CHRI requests.

(4) All agencies shall insure that requests for CHRI, and responses to requests for CHRI, are for legitimate purposes.

(5) All agencies requesting CHRI or responding to requests for CHRI shall comply with U.S. Department of Justice Rules and Regulations as they relate to completeness, accuracy and the dissemination of CHRI.

(6) All agencies shall comply with the policies and procedures for the interstate exchange of CHRI as set forth in this section.
(7) Any electronic device that uses wireless or radio technology to transmit data may be used for the transmission of criminal history record information when an officer determines there is an immediate need for this information to further an investigation or there is a situation affecting the safety of an officer or the general public. (This may include radios, fax machines, etc.)

(8) A facsimile machine may be used to transmit CHRI information provided that both agencies involved have an Originating Agency Identifier (ORI) authorized to receive criminal history information. The facsimile machine must be located in a secure area. As not all facsimile machines are monitored continually, the receiving agency should be notified prior to transmitting the information. This will ensure proper retrieval of information.

(9) In order for criminal justice information to be allowed to be transmitted via e-mail, both the sending and receiving e-mail accounts must be encrypted to meet the standards set forth by the CJIS Security Policy.
20.33 Dissemination of criminal history record information

(a) Criminal history record information contained in the III System and Fingerprint Identification Records System (FIRS) may be made available:
   1. To criminal justice agencies for criminal justice purposes, which purposes include the screening of employees or applicants for employment hired by criminal justice agencies;
   2. To federal agencies authorized to receive it pursuant to federal statute or Executive order;
   3. For use in connection with licensing or employment, pursuant to Public Law 92-544 (86 stat. 1115) or other federal legislation, and for other uses which dissemination is authorized by federal law. Refer to Sec. 50.12 of this chapter for dissemination guidelines relating to requests processed under this paragraph;
   4. For issuance of press releases and publicity designed to effect the apprehension of wanted persons in connection with serious or significant offenses;
   5. To criminal justice agencies for the conduct of background checks under the National Instant Criminal Background Check System (NICS);
   6. To noncriminal justice governmental agencies performing criminal justice dispatching functions or data processing / information services for criminal justice agencies; and
   7. To private contractors pursuant to a specific agreement with an agency identified in paragraphs (a)(1) or (a)(6) of this section and for the purpose of providing services for the administration of criminal justice pursuant to that agreement. The agreement must incorporate a security addendum approved by the Attorney General of the United States, which shall specifically authorize access to criminal history record information, limit the use of the information to the purposes for which it is provided, ensure the security and confidentiality of the information is consistent with these regulations, provide for sanctions, and contain such other provisions as the Attorney General may require. The power and authority of the Attorney General hereunder shall be exercised by the FBI Director (or the Director’s designee).

(b) The exchange of criminal history record information authorized by paragraph (a) of this section is subject to cancellation if dissemination is made outside the receiving departments or related agencies, or service providers identified in paragraphs (a)(6) & (a)(7) of this section.

(c) Nothing in these regulations prevents a criminal justice agency from disclosing to the public factual information concerning the status of an investigation, the apprehension, arrest, release or prosecution of an individual, the adjudication of charges, or the correctional status of an individual, which is reasonably contemporaneous with the event to which the information relates.

(d) Criminal history records received from the III System or the FIRS shall be used only for the purpose requested and a current record should be requested when needed for a subsequent authorized use.

20.21(e) Preparation and submission of a Criminal History Record Information Plan

Audits. Insure that annual audits of a representative sample of state and local criminal justice agencies chosen on a random basis shall be conducted by the state to verify adherence to these regulations and that appropriate records shall be retained to facilitate such audits. Such records shall include, but are not limited to, the names of all persons or agencies to whom information is disseminated and the date upon which such information is disseminated. The reporting of a criminal justice transaction to a State, local or Federal repository is not a dissemination of information.
RELEASE OF CHRI

A secondary dissemination log must be created for III and State of Wisconsin CHRI records and be maintained for one year from the date of inquiry. This log shall be completed whenever a record is transferred to another criminal justice agency or an individual within another criminal justice agency or to anyone legally entitled to receive such information who is outside the original receiving agency and is not included in the attention line. This log shall include the name of the individual within the criminal justice agency to whom the response is given.

ATTENTION LINE/REASON FOR REQUEST

Include the unique identifier of the specific individual the segment/record will be given to, e.g., Lt Smith, Officer Jones, DA Johnson. It is also a good practice to include information on the reason for the request (if space allows).

OUT-OF-STATE CHRI ISSUES

Some state and local agencies by statute cannot respond to CHRI requests based on a specific purpose code. Always check that state's "SIR" Help File for the most current status. Each state may also require different minimum combinations of data. All however, require purpose code and attention line.

RECEIVING CHRI MESSAGES

When receiving a valid CHRI request, it is best to acknowledge the receipt of that message advising when the response will be sent.
ACCESS TO FBI CHRI (III)

The III shall not be used to access a record to be reviewed and/or challenged by the subject of the record. If an individual has a criminal record maintained by the FBI and that record has been entered in the III, it is available for review, upon presentation of appropriate fee and identification (which includes a set of rolled fingerprint impressions, name, date and place of birth). For questions please contact the Criminal History Record Request Unit via phone (304) 625-5590. A written request must be submitted to:

Federal Bureau of Investigation
CJIS Division
ATTN: SCU, Module D-2
1000 Custer Hollow Rd.
Clarksburg, WV 26306-0171

ACCESS TO WI CHRI

Wisconsin’s Open Records Law, §19.35(1), allows requestors the ability to access adult criminal record files. Information received via the TIME System is not to be disseminated to non-criminal justice entities. The Department of Justice is required to charge a fee to record check requestors for criminal history searches for purposes other than criminal justice. Individuals should use the Department of Justice’s internet application, WORCS (Wisconsin Online Record Check System) at https://recordcheck.doj.wi.gov to run background checks and access the results. For agencies that run a large volume of background checks you may wish to set up a billing account. You can find more information about setting up a billing account here: https://recordcheck.doj.wi.gov/Home/FAQ

You may still submit an Identification Record Request form with a self-addressed stamped envelope for the results to be returned.

Mail to:

Wisconsin Department of Justice
Crime Information Bureau-Criminal History Unit
17 West Main Street
PO BOX 2688
Madison, WI 53701-2688

If you have any questions please contact the unit at 608-266-7314 or cibrecordcheck@doj.state.wi.us.
CHRI PURPOSE CODES

CODE C  CRIMINAL JUSTICE/LAW ENFORCEMENT PURPOSES
Acceptable by the Interstate Identification Index (III) and the state central repositories. Adult and juvenile records are accessible for this type of investigation.

Used for official duties in connection with administration of criminal justice. The term “administration of criminal justice” is defined as the performance of any of the following activities: detection, apprehension, detention, pretrial release, post-trial release, prosecution, adjudication, correctional supervision, rehabilitation of accused persons or criminal offenders. The administration of criminal justice includes criminal identification activities and the collection, processing, storage and dissemination of criminal justice information by governmental agencies. Social service cases involving child abuse, neglect or exploitation may be performed using a social service agency ORI ending in the letter “F”.

Agencies may request a criminal history record check using purpose code C for the security of the criminal justice facility, for example:

1. Vendors or contractors at the criminal justice agency who are NOT involved with the actual administration of criminal justice at the criminal justice agency, e.g., carpet cleaner, individuals responsible for maintaining vending machines, janitors, cooks, etc.
2. Volunteers at the criminal justice agency who are NOT involved with the actual administration of criminal justice at the criminal justice agency, e.g., participants in community ride along programs, volunteers at a confinement facility who are providing social or community services rather than rehabilitative services etc.
3. Confinement facility visitors.
4. Inmates of a confinement facility.
5. Inmate mail. A prisoner’s list of names and addresses of those wishing to correspond with the prisoner. CHRI may be used when there is reason to believe that criminal activity is occurring or has occurred.
6. Participants of law enforcement-sponsored firearms training classes held at a public firing range or law enforcement facility.

CODE D  CIVIL DOMESTIC VIOLENCE AND STALKING CASES
Acceptable by III and the state central repositories. CIB will return only adult records. III will only provide information that has not been sealed by the contributing state.

Civil court cases involving domestic violence or stalking cases (civil courts are issued a NCIC Agency Identifier with the letter D in the ninth position of the identifier). Law enforcement agencies providing CHRI to a civil court for a domestic violence hearing.
CODE F  RETURN OF FIREARM(S) TO LAWFUL OWNER
Acceptable by the Interstate Identification Index (III) and the state central repositories. Adult and juvenile records are accessible for this type of investigation.

Used by criminal justice agencies for the purposes of issuing firearms-related permits and explosives permits pursuant to state law, regulation, or local ordinance; returning firearms to their lawful owners; and enforcing federal and state laws prohibiting certain persons with criminal records from possessing firearms in circumstances in which firearms have been pawned.

CODE H  PUBLIC HOUSING APPLICANTS
Acceptable by III and the state central repositories. CIB will return only adult records. III will provide the identification segment of the record only. There is a cost for this type of request that will be billed to the ORI of the request. This code is prohibited when using the eTIME browser.

The Public Housing Authority (PHA) must submit a fingerprint card to the FBI to obtain the complete record. It is used to check the suitability of applicants for public housing under the authority of the Housing Opportunity Extension Act of 1996.

CODE J  CRIMINAL JUSTICE EMPLOYEE APPLICANT CHECKS
Acceptable by III and the state central repositories. Adult and juvenile records are accessible for this type of background investigation.

This purpose code is used to initiate background checks of agency personnel. This includes:

Noncriminal justice agencies that are involved with the administration of criminal justice on behalf of the criminal justice agency.

Vendors or contractors at the criminal justice agency who ARE involved with the actual administration of criminal justice at the criminal justice agency, e.g., personnel involved with maintenance of computer systems, upgrading records system, data entry clerk, etc.

Volunteers at the criminal justice agency who ARE involved with the actual administration of criminal justice at the criminal justice agency, e.g., volunteer dispatcher, volunteer data entry clerk, volunteers at a confinement facility who are providing inmate rehabilitation, etc.

CODE E  AUTHORIZED EMPLOYMENT/LICENSING PURPOSES
Accepted by some state central repositories only, no other purpose code may be used to bypass this requirement and access III information for employment purposes. Only adult records are accessible for this type of background investigation. Authorized means that the criminal history inquiry is required by state statute, local ordinance or federal regulation. Agencies using the TIME System terminal to do this type of non-law enforcement background checks are encouraged to use https://recordcheck.doj.wi.gov/ instead. There is a cost for this type of request that will be billed to the ORI of the request. This code is prohibited when using the eTIME browser.
INTERSTATE IDENTIFICATION INDEX

III is an automated index on persons with criminal records. III provides access to FBI identification segments and criminal records. A single state agency in each state is responsible for providing the state’s records. For states without the ability to provide records for III, the FBI will provide the information from its automated files. Criminal justice agencies can use this information for law enforcement purposes; e.g., criminal investigations, bond setting, charging determinations, sentencing and criminal justice employment. Criminal records obtained through III cannot be used for licensing or employment purposes. III queries can be made for gun licensing if required by State Statute or local ordinance.

The III index points to the criminal history record residing either in the FBI or the particular state(s) holding the information. In December 1999, Wisconsin became a participating III State and began contributing Criminal History Records to the Interstate Identification Index. These records are based on arrest fingerprints submitted by arresting agencies within the state. All records with an arrest date after 11-01-99 will be the responsibility of the Wisconsin Crime Information Bureau.

An initial query of III is made to determine the existence of a record. The FBI computer searches its database and returns a list of possible ident segments relating to your request. The segments contain physical identifiers, additional numeric data and aliases. Upon determining a segment is related to the person in question, a second transaction is necessary to obtain the criminal record. The ident segment will indicate the location of the record and how to access it.
INTERSTATE IDENTIFICATION INDEX

INQUIRIES

There are five ways to query the Interstate Identification Index. **PURPOSE CODE** and **ATTENTION LINE** are required with any of the following combinations:

1. NAME  
   SEX/RACE  
   DATE OF BIRTH
2. NAME  
   SOCIAL SECURITY #
3. NAME  
   MISC #
4. NAME  
   STATE IDENTIFICATION #
5. NAME  
   FBI #

SEARCH TECHNIQUES

III utilizes different search techniques than the NCIC Warrant/Wanted and Missing Person File.

**NAME**

Soundex on last name, first name and middle name (if used)

**SEX/RACE**

Exact match on sex
Race is not used

**DATE OF BIRTH**

Exact match on month and day of birth
Three years either side of the year of birth
IDENTIFICATION SEGMENT RESPONSE

WI0416100 - MILWAUKEE CO DISTRICT ATTORNEY
WI041013A - MILWAUKEE COUNTY DISTRICT ATTY
WI000000M - MUNICIPAL COURT

************************** END OF RECORD **************************
These transactions require the individual's name, sex/race, date of birth, purpose for the inquiry and name of requestor. In addition to searching the CIB criminal history database, this transaction will also produce responses from the following files:

- Wisconsin/Out-of-State Driver's License
- NCIC/CIB Warrant/Wanted/Missing Person
- Wisconsin Department of Corrections

The search techniques for this transaction use strict parameters. To eliminate multiple near hits, the search criteria will produce just one record or a "no record" response.

The search techniques for the DOT Driver's and NCIC/CIB Warrant/Missing Person files will not change from what is currently used for all other transactions. Multiple near hits will still be possible.

The only authorized purpose code is C - Criminal Justice Purposes. The attention line must include the unique identifier of the specific individual requesting the information; e.g., Officer Smith, Lt. Jones.

To obtain the Wisconsin summary criminal history:

MANUAL CHECK/FOLLOW-UP

Agencies may send manual check or follow-up requests to a state central repository or to the FBI Identification Division. These requests are for specific information, e.g., certified copies of arrest records, photographs or non-automated records not accessible through the Interstate Identification Index (III).

The request may be made using the following required fields:

- PURPOSE CODE
- ATTENTION LINE/REASON
- AGENCY NAME
- ADDRESS
- CITY, STATE
- ZIP CODE
- REMARKS

**AND** whatever optional fields available to identify the record:

- *NAME, SEX, RACE, DATE OF BIRTH
- *PLACE OF BIRTH
- *HEIGHT, WEIGHT
- *EYE COLOR, HAIR COLOR
- *SCARS, MARKS, TATTOOS AND OTHER CHARACTERISTICS
- *SKINTONE
- *FINGERPRINT CLASSIFICATION
- *SOCIAL SECURITY #
- *STATE IDENTIFICATION #

GLOSSARY

/9998: Acknowledgement of TIME System transaction
/9999: Reject of TIME System transaction

APBD: All Points Broadcast

ARTICLE FILE: Includes items that do not qualify for entry to the vehicle, gun, boat or security files.

ATL: Attempt to Locate

BOAT FILE: This file contains stolen boats provided the vessel is registered, documented or there is a permanent identifying serial number affixed.

CAVEAT: A warning statement

CCAP: Consolidated Court Automation Programs

CCH: Centralized Criminal History

CCW: Carry Concealed Weapon

CHRI: Criminal History Record Information

CIB: Crime Information Bureau

CJIS: Criminal Justice Information Services Division (FBI)

CPIC: Canadian Police Information Centre

CTO: Control Terminal Officer

CURSOR: Blinking or solid character used to indicate location on screen.

DATABASE: A computer containing information, which can be accessed via the TIME System terminal such as CIB, DOT, NCIC and NLETS.

DNR: Department of Natural Resources

DOT: Department of Transportation

eTIME Browser: Internet access to NCIC, CIB, NLETS, CPIC and DOT data services.

EXTRADITE: Turn over an alleged criminal to the jurisdiction of a law enforcement/criminal justice agency in another state.
FBI: Federal Bureau of Investigation

FBI #: Unique number assigned to an FBI criminal history record.

FIELD: A specific number of spaces for characters used to describe requested information such as DATE OF BIRTH, FIRST NAME and LAST NAME.

FPS: Canadian Fingerprint(s) Identification Number, Canada's version of the FBI number.

GANG FILE: This file provides identifying information about violent criminal gangs and members of those gangs.

GUN FILE: This file contains stolen, lost (missing), felony and recovered guns identified by make, caliber, type and serial number.

HARD COPY: Message printed on paper.

HEADER: Pertinent system information that precedes each TIME System message.

HIT: A response received from a database, which upon review is determined to match the data inquired upon.

HOT FILES: NCIC, CIB, CPIC, Wanted/Stolen status files

III: Interstate Identification Index (Automated FBI Criminal History Information)

INPUT NUMBER: The number assigned in your acknowledgement by the message switch.

INTERPOL: International Criminal Police Organization (DCINTER00)

KST: Known or Appropriately Suspected Terrorist File

MENU: A list describing available TIME System functions, which when selected will lead the user to the appropriate formatted screen to perform the desired transaction.

MISSING PERSON FILE: This file contains records of persons who are missing. Missing persons may be entered into the following categories: Disabled, Endangered, Involuntary, Disaster Victim, Other and Juvenile.

MNEMONIC: A unique four character alpha/numeric code assigned to each TIME System terminal.

MRI NUMBER: Same as the TIME System Message Number.

NCIC: National Crime Information Center

NCIC AGENCY IDENTIFIER: A unique nine-character alpha/numeric code, assigned to each law enforcement/criminal justice agency in the U.S., Puerto Rico, Virgin Islands and Canada.
NEAR HIT: A response received from a database, which upon review is determined not to match the data queried.

NICB: National Insurance Crime Bureau

NCIC NUMBER: (NIC) Unique number assigned to a record by the NCIC computer.

NICS (NICS) National Instant Criminal Background Check System.

NLETS: International Justice and Public Safety Information Sharing Network

OAN: Owner Applied Number

OCA: Originating agency case number

ORI: Originating agency, holder of the record

ORION: Automated ORI File.

OUTPUT NUMBER: Numbers received in responses to transactions sent.

PART FILE: This file contains stolen boat and vehicle parts, provided the part has a unique identifying number permanently attached.

POIF: NCIC Protection Order and Injunction File

PURPOSE CODE: The reason a criminal history is requested.
   C - Criminal Justice Purposes
   D - Domestic Violence and Stalking
   E - Authorized Employment or Licensing Purposes
   F - Return of Firearm to Lawful Owner
   H - Public Housing Applicants Screening
   J - All Criminal Justice Employee Applicant Checks

PSN: Physical Station Number (a specific four-character code assigned to each TIME System terminal)

QUERY: A computerized search of automated data files.

REJECT: Notification that data entered or queried via the TIME System terminal has not met specified criteria.

SECURITY FILE: This file contains serially numbered identifiable securities, which have been stolen, embezzled or are otherwise missing. This includes currency (paper money -- both real and counterfeit) and those documents, which are traded in securities exchanges -- stocks, bonds, etc.

SOUNDEX: A name search technique used by databases.
**SWQ:** State Wanted Query

**SYSIDNO (SYSTEM IDENT #):** Unique number assigned to a record by the CIB computer upon entry.

**TAC:** TIME Agency Coordinator. Responsible for familiarizing new personnel to the TIME System and terminal functions. The contact person for CIB training staff. Each agency having TIME System access must designate an individual employed by the criminal justice agency as TIME Agency Coordinator (TAC). Any exceptions must be coordinated with and approved by CIB.

**TIME:** Transaction Information for Management of Enforcement

**TIME SYSTEM MESSAGE NUMBER:** Number assigned to your transaction by the message switch. This number will appear in the /9998 acknowledgement and in each of the responses received to the specific transaction. Same as the MRI number.

**TSCC:** TIME System Control Center

**UNIDENTIFIED PERSON FILE:** This file contains records of both living and deceased unidentified persons and body parts.

**UNIVERSAL CONTROL NUMBER:** Unique number assigned to an FBI criminal history record. Also known as the FBI number.

**VALIDATION OFFICER:** Person responsible for verifying the accuracy and completeness of records entered to the data files.

**VEHICLE FILE (STOLEN):** Information in this file includes: stolen vehicles, stolen or lost license plates and vehicles used in the commission of a felony.

**VIN:** Vehicle Identification Number

**WARRANT/WANTED PERSON FILE:** Included in this file are persons against whom outstanding court warrants or authorized wants exist.
