## Violent Crime is Up in Wisconsin, Property Crime Stays Flat

**↑ 11.2%**

increase in violent crimes

**↑ 0.1%**

increase in property crimes

**280**

violent crimes  
per 100,000 residents

**2,435**

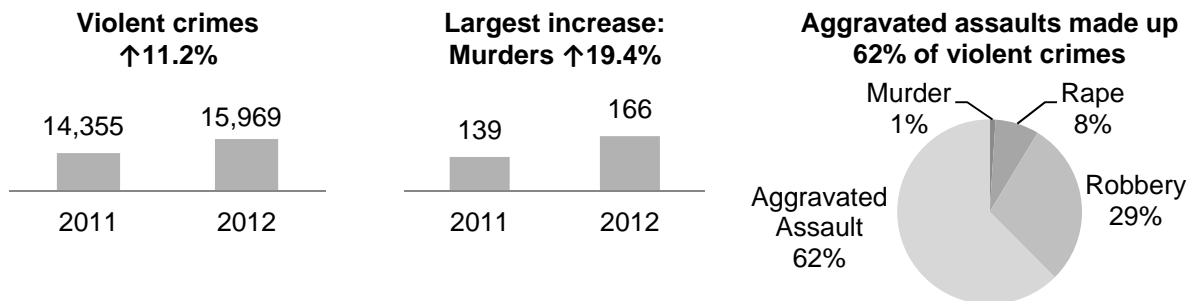

property crimes  
per 100,000 residents

**Crime in Wisconsin 2012** provides an overview of offenses reported to law enforcement in 2012. For the state overall, counties, and individual jurisdictions, statistics are presented for murder, rape, robbery, assault, burglary, theft, motor vehicle theft, and arson.

2012 Uniform Crime Reporting data provided by Wisconsin law enforcement agencies indicates an 11.2% increase in violent crime and little change in property crime rates.

Key trends in 2012 included:

## Violent Crime

There were 15,969 violent crimes reported in Wisconsin in 2012, including murders, forcible rapes, aggravated assaults and robberies. This is an increase of 11.2% over 2011. (see page 5)

This increase may be part of a wider Midwestern trend (see page 5). Unique state trends, however, may also be at play.

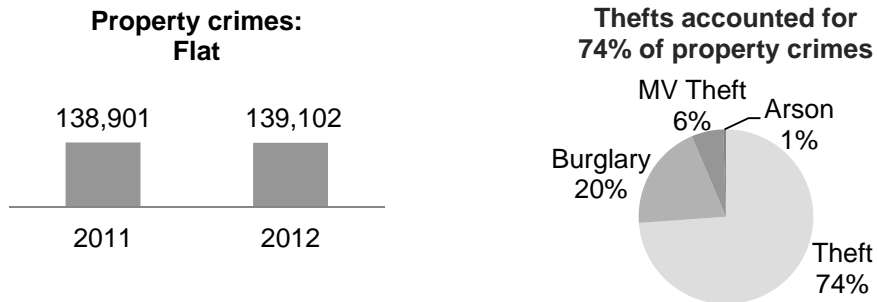

Murder, rape, and aggravated assault all saw increases in 2012, particularly murder (up 19.4% over 2011) and aggravated assaults (up 18.3%). Almost half of the increase in murders can be attributed to three multiple homicides: the Oak Creek Sikh Temple shooting in which six people were killed in August 2012, an arson homicide in which three children were killed in September, and the Azeda Salon and Spa

shooting in Brookfield, WI, in which three people were killed in October 2012. (see page 8)

As in previous years, aggravated assaults made up the majority (62%) of violent crimes (see page 15).

53% of violent crimes were cleared in 2012.

## Property Crime

There were 139,102 property crimes reported in Wisconsin in 2012, including thefts, burglaries, motor vehicle thefts, and arson. This is not a significant change from 2011. (see page 17)

Thefts made up approximately three-quarters of reported property crimes, and saw no significant increase or decrease in 2012.

Property valued at more than \$141 million was lost due to burglary, theft, and motor vehicle theft. Property valued at more than \$7 million was lost due to arson.

27% of property crimes were cleared in 2012.

# Dedication

This publication is dedicated to all law enforcement officers, and in particular to the memory of the two Wisconsin law enforcement officers who lost their lives while performing their duty in 2012.

## Introduction

---

As mandated by the Wisconsin Legislature [Wisconsin Statute 16.964(1m)(g)], the Wisconsin Department of Justice (DOJ) is responsible for reporting information concerning the number and nature of criminal offenses known to have been committed in the state. This includes collecting crime and arrest data from 398 separate law enforcement agencies for the FBI's Uniform Crime Reporting Program (a nationwide cooperative statistical effort of more than 17,000 law enforcement agencies voluntarily reporting data on crime). The primary objective of UCR is to generate reliable information for use in law enforcement administration, operation, and management. Today, the American public looks to the Uniform Crime Reports for information on fluctuations in the level of crime, and criminologists, sociologists, legislators, municipal planners, the media and other students of criminal justice use the statistics for varied research and planning purposes.

This report, prepared by the DOJ Statistical Analysis Center (SAC), is a collection of crime data reported to Wisconsin law enforcement agencies in 2012. It contains detailed information on crime volume, rates, and trends for eight major criminal offenses as designated by the FBI: *Murder, Forcible Rape, Robbery, Aggravated Assault, Burglary, Larceny-Theft, Motor Vehicle Theft, and Arson.*

---

## Background

---

The Uniform Crime Reporting (UCR) Program was first initiated in 1930 by the International Association of Chiefs of Police (IACP). Recognizing a need for national crime statistics, IACP formed the Committee on Uniform Crime Records. The committee evaluated crimes on the basis of their seriousness, frequency of occurrence, pervasiveness in all geographic areas of the country, and likelihood of being reported to law enforcement. After studying state criminal codes and evaluating the recordkeeping practices in use, the Committee identified seven main classifications known as Part I crimes: murder and non-negligent manslaughter, forcible rape, robbery and aggravated assault; and the property crimes of burglary, larceny-theft and motor vehicle theft. By Congressional mandate, arson was added as the eighth Part I offense category in 1979. Agencies classify and score these offenses according to a hierarchy rule in which only the most severe offense is counted (in cases with more than one offense).

During the early planning of the program, it was recognized that the differences among criminal codes precluded a mere aggregation of state statistics to arrive at a national total. Further, because of the variances in punishment for the same offenses in different state codes, no distinction between felony and misdemeanor crimes was possible. To avoid these problems and provide nationwide uniformity in crime reporting, standardized offense definitions by which law enforcement agencies were to submit data without regard for local statutes were formulated.

The amount and type of data collected and disseminated by the UCR program remained virtually unchanged for nearly sixty years. Yet by the 1980s it had become clear that the nature of law enforcement investigations and reporting had changed dramatically since the inception of the program. As a result, the FBI initiated a thorough evaluation of the existing system with the purpose of formulating a phased-in redesign effort to enable the program to meet the needs of law enforcement into the 21<sup>st</sup> century.

Based upon the recommendations of the evaluation, the FBI developed a new system known as the National Incident-Based Reporting System (NIBRS). Unlike the aggregate summary-based system, NIBRS is designed to collect information on multiple aspects of a crime, including characteristics of the offense and its associated victims, offenders, property, and arrestees. In 1998, the FBI released the final data elements and offense specifications of the new system. At that time, Wisconsin and other state programs began their efforts to implement this enhanced reporting system.

Due to the increased reporting requirements of the new program, DOJ is implementing it in phases to allow law enforcement agencies the time and resources needed to acquire the necessary technological capabilities. Today, the state has 300-plus law enforcement agencies participating in Summary-Based

Reporting (commonly referred to as UCR) and 80-plus agencies participating in Incident-Based Reporting (IBR). As the State of Wisconsin moves forward with the implementation of this data collection program, a number of additional agencies will be submitting IBR data in 2013.

Due to the changing landscape of statistical information dissemination and available resources, in 2007 the Statistical Analysis Center followed the lead of the FBI and their annual report, *Crime in the United States*, by discontinuing all printed versions of this publication to focus exclusively on internet technology for future distributions. This allows the agency to maximize its limited resources, while continuing to provide useful and valuable data to a broad audience.

## **Format & Structure**

---

This report is separated into five main sections: Introduction, How to Read UCR Data, Violent Crime in Wisconsin, Property Crime in Wisconsin, and Appendix. The Criminal Offenses section provides statewide statistical information such as volume, rates, and trends for each of the eight major UCR offenses discussed above. The Appendix contains detailed tables on crime volume, crime rates, clearance rates, and stolen property amounts by county and law enforcement agency.

For updated data, please see the Justice Data Portal at:  
<https://sac.oja.wisconsin.gov/sacapps/jdp.aspx>

## How to Read UCR Data

### What to Look For

The data presented in this report represent one “snapshot” in time. Reported crimes can continue to be revised as updates and additions are submitted. Therefore, the official record of reported offenses committed in 2012 may be slightly different days, weeks, or months from the time of this publication. This report is therefore best read with a focus on large trends in Wisconsin crime, rather than on the exact numbers of crimes reported in each crime category.

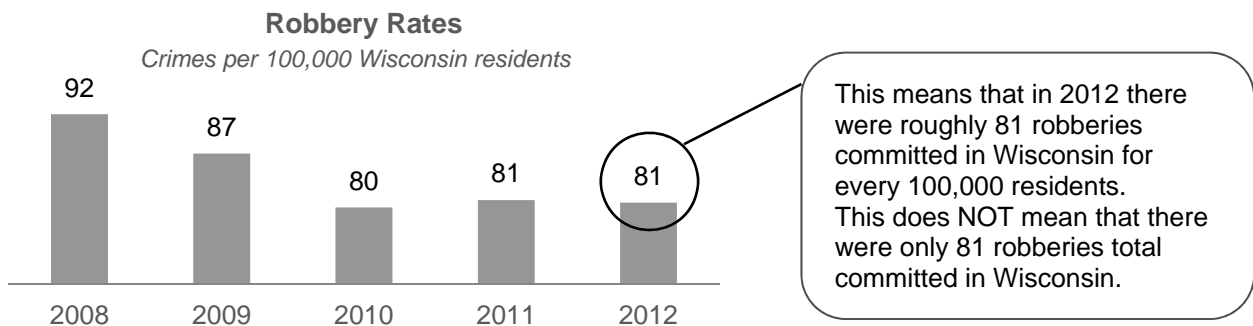

Percentages presented in this report may add to more than 100 percent due to rounding.

### Reading Crime Rates

Throughout the report, crime is frequently reported in terms of crime rates. These crime rates are calculations of how many crimes were committed per 100,000 residents. This is done to provide a point of comparison between jurisdictions with varying levels of population. Crime rates are calculated as:

$$\text{CRIME RATE PER 100,000 RESIDENTS} = 100,000 * \text{TOTAL OFFENSES} \div \text{POPULATION}$$

Below is an example of how to read crime rates.

### Understanding Data Limitations

Caution should be taken when comparing the results to other previous annual reports. Shifting of a law enforcement agency from one population category to another based on annual re-estimation of the jurisdiction’s population may have an effect on rates. Additionally, this report reflects offenses that were reported to law enforcement agencies in 2012 but may have occurred during previous years. Finally, changes to law enforcement policies and procedures and their effect on crime rates must also be taken into consideration.

As presented by the FBI in their annual report, *Crime in the United States*, adequate assessment of criminality and law enforcement’s response from jurisdiction to jurisdiction requires the consideration of many variables, some of which are difficult to measure or not applicable to all locales. Some of the factors known to affect volume and type of crime in different locations are:

- Population density and degree of urbanization;
- Variations in composition of the population, particularly youth concentration;
- Stability of population with respect to residents’ mobility and commuting patterns;
- Economic conditions, including median income, poverty level and job availability;
- Cultural factors and educational, recreational and religious characteristics;

- Family conditions including divorce and family cohesiveness;
- Climate;
- Effective strength of law enforcement agencies;
- Administrative and investigative emphases of law enforcement;
- Policies of other components of the criminal justice system (i.e., prosecutorial, judicial, correctional and probational);
- Citizens' attitudes toward crime; and
- Crime reporting practices of the citizenry.

Valid assessments are possible only with careful study and analysis of the particular conditions affecting each local law enforcement jurisdiction.

The data used in this report were from all Wisconsin law enforcement agencies participating in the UCR Program (including those submitting less than 12 months of data).

# Violent Crime

## UCR Definition

Violent crime is composed of four offenses: Murder, Forcible Rape, Robbery, and Aggravated Assault.

Violent crimes involve force or threat of force.

**↑11.2%**

increase in violent crimes

**15,969**

violent crimes reported

**53%**

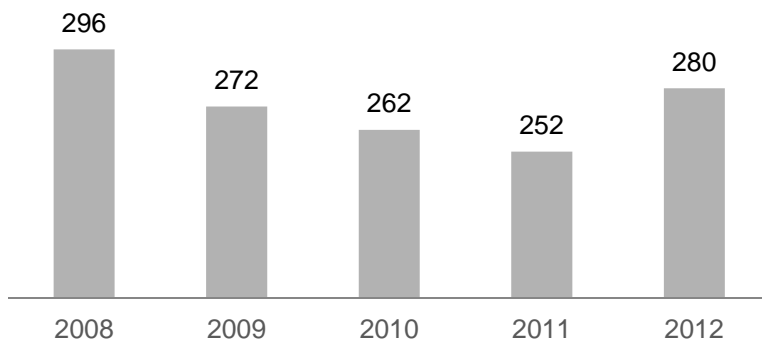

cleared by arrest

**62%**

aggravated assaults

## Violent Crime Rates

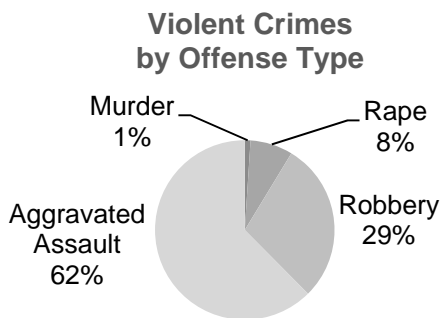

Crimes per 100,000 Wisconsin residents

Violent crimes reported in Wisconsin in 2012 reversed a three year downward trend, increasing 11.2% over 2011. This increase was driven by increases in two categories: murders up 19.4% (see page 8) and aggravated assaults up 18.3% (see page 15). Between 2008 and 2011, violent crimes per 100,000 residents declined 15%. 2012 saw a return almost to 2008 violent crime levels, with 280 reported violent crimes per 100,000 Wisconsin residents.

Partly, this increase may fit within a wider Midwestern trend. The FBI's Preliminary Annual Uniform Crime Report for 2012 showed a 1.3% increase in violent crime in the Midwest, driven by a 3.3% increase in murders and 2.7% increase in aggravated assaults. Unique state trends, however, may also be at play.

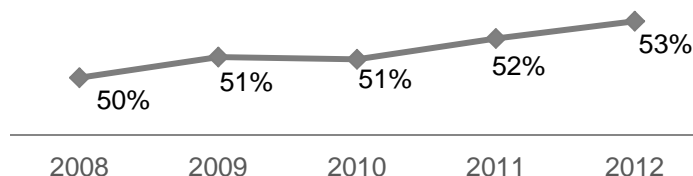

Consistent with previous years, aggravated assaults made up the majority of violent crimes (62%), followed by robbery (29%), rape (8%) and murder (1%).

Violent crime clearances increased slightly in 2012, up one percentage point to 53%. Comparatively, the FBI's *Crime in the U.S. 2011* reported a national clearance rate of 48%.

The five-year trend for Wisconsin violent crime clearance rates is up.

## Violent Crime Clearance Rates

VIOLENT CRIME

Murder

Rape

Robbery

Assault

# Violent Crime

## Regional Trends

### Regional Violent Crime Rates

*Crimes per 100,000 residents*

<b>Southeast</b>	<b>488</b>
<b>Northeast</b>	<b>184</b>
<b>Southwest</b>	<b>176</b>
<b>Northwest</b>	<b>152</b>
<b>North Central</b>	<b>120</b>

#### NORTH CENTRAL

This region has the lowest population and lowest violent crime rate among the Wisconsin regions. The North Central 2012 violent crime rate was 120 per 100,000 residents, fairly even with the region's 2011 rate.

#### NORTHWEST

The Northwest region reported 152 violent crimes per 100,000 residents.

This region had increases in aggravated assaults (up 15%), murders (up to 10 from 6), and rapes (up 24%). Robbery levels stayed consistent with 2011 levels.

#### NORTHEAST

The Northeast region had the second-highest per capita violent crime rate for 2012, at 184 violent crimes per 100,000 residents.

Violent crime in this region increased 17% over 2011. Mirroring statewide trends, this increase was driven largely by aggravated assaults (up 15%).

#### SOUTHWEST

The Southwest region was the only region as a whole experience a decrease in violent crime. Violent crimes per 100,000 residents dropped from 182 to 176 in 2012, with declines in aggravated assaults (down 4%), murders (down 1 offense), and robberies (down 9%).

#### SOUTHEAST

Southeast Wisconsin has both the highest regional population and the highest violent crime rate in the state. This area reported 488 violent crimes per 100,000 residents in 2012.

This region accounted for 62% of the state's violent crimes in 2012. Because of the volume of offenses occurring in this region, the Southeast region is a major influence on overall state crime trends.

#### VIOLENT CRIME

*Murder*

*Rape*

*Robbery*

*Assault*

# Violent Crime

## Major City Trends

57% of the violent crimes reported in Wisconsin in 2012 occurred in Wisconsin's major cities: Milwaukee, Madison, and Green Bay, each of which has more than 100,000 residents. Reports from those three cities' police departments combined show violent crimes up 16.3% in 2012, driven by increases in aggravated assaults (up 32% across the three cities combined) and forcible rapes (up 15%). Murder levels and robbery levels for the three cities combined were relatively flat compared to the previous year.

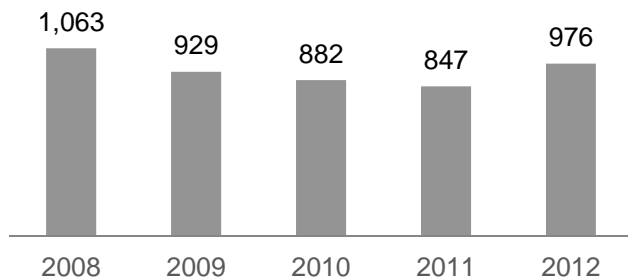

Milwaukee, Madison, and Green Bay police departments are among the agencies currently participating in incident-based reporting. As a result, we are able to analyze crime in those cities at a more granular level than for the state overall. Incident-based data provide insight into what weapons are commonly used in violent crimes, common locations of crimes, and victim and offender demographics. These data suggest that for 2012 in Wisconsin's three largest cities:

- Firearms, including handguns, rifles, shotguns, and other firearms were involved in 38% of violent crimes in these cities. Personal weapons (for example, hands, fists, or feet) were used in 30% of violent crimes. Knives or other cutting instruments were used in 11%.
- The most common locations for violent crimes were on a highway, road, or alley (43%); victim residence (30%); offender residence (5%); other residence (4%); and parking lot or garage (4%).

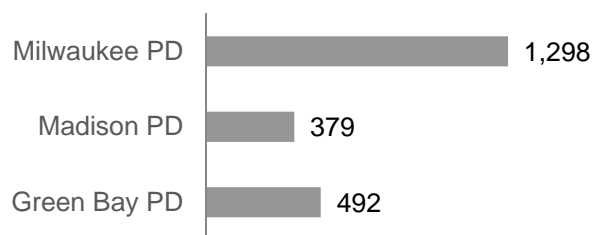

### Major City Violent Crime Rates

Crimes per 100,000 Wisconsin residents in cities with over 100,000 population

### Violent Crime Rates by Agency

2012 crimes per 100,000 Wisconsin residents by jurisdiction over 100,000 population

### Weapons Used in Major City Violent Crime

**65%** of forcible rapes involved personal weapons (e.g. hands, fists, feet)

**63%** of murders involved a handgun

**46%** of robberies involved a handgun

**31%** of aggravated assaults involved personal weapons (e.g. hands, fists, feet)

### Alcohol and Drug Use in Major City Violent Crime

**6%** of murders involved offender alcohol use

**15%** of forcible rapes involved offender alcohol use

**5%** of forcible rapes involved offender drug use

**13%** of aggravated assaults involved offender alcohol use

VIOLENT CRIME

Murder

Rape

Robbery

Assault

# Violent Crime

## Murder

### UCR Definition

*Murder is the willful killing of one human being by another.*

*The classification of this offense is based solely on police investigation, as opposed to the determination of the court, medical examiner, coroner, jury, or other judicial body.*

**↑19.4%**

increase in murders

**166**

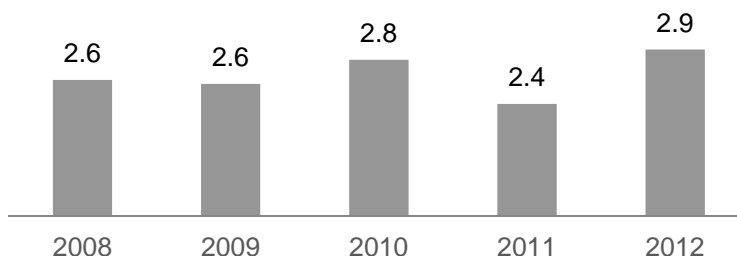

persons murdered

**79%**

cleared by arrest

### Murder Rates

Murders per 100,000 Wisconsin residents

### Murder Trends

166 persons were murdered in Wisconsin in 2012, an increase of over 19% from 2011. This computes to a rate of 2.9 murders per 100,000 Wisconsin residents, up from 2.4 in 2011. Although the 2012 rate is the highest Wisconsin has seen in the last five years, it is below the murder rates the state experienced in 2006 (3.0) and 2007 (3.3), and below the historical high of 4.8 in 1991.

Despite the increase in Wisconsin murders, the 2012 Wisconsin murder rate remains lower than recent nationwide and Midwest murder rates. At the time of this publication, nationwide 2012 crime rates were not yet available. In 2011, the nationwide murder rate in 2011 was 4.7 murders per 100,000 residents, and the Midwest murder rate was 4.5 murders per 100,000 residents.

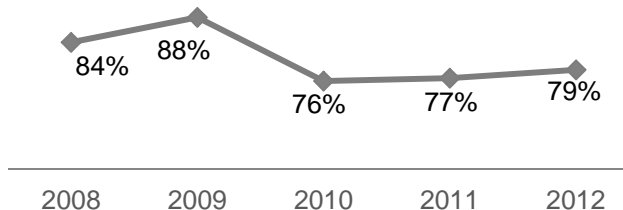

Slightly less than half (44%) of the increase in murders in 2012 can be attributed to three multiple-victim homicides. In August 2012, a man fatally shot six people at a Sikh temple in Oak Creek, Wisconsin. In September, two men set a house on fire, killing three children under the age of eight. In October, a man opened fire in a salon and spa in Brookfield, Wisconsin, killing three people.

### Murder Clearance Trends

Murder typically has the highest clearance rate of all crime categories. This trend continued in 2012 with law enforcement clearing 79% of murders by arrest. 2012 was the second year in a row that murder clearance rates increased, after falling off from a recent high of 88% in 2009.

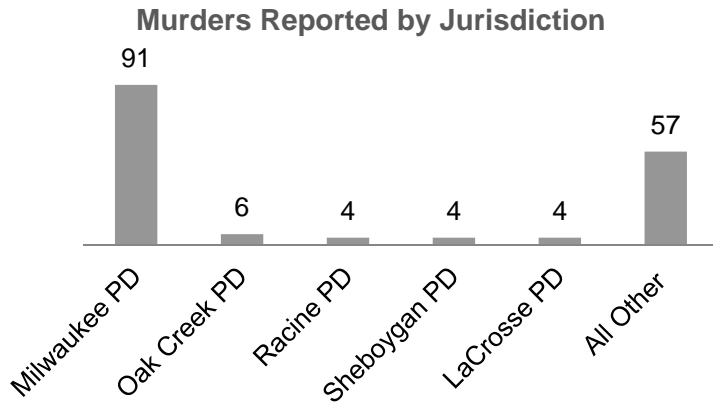

Nationally in 2011 64.8% of reported murders were cleared by arrest.

### Murder Clearance Rates

# Violent Crime

## Murder

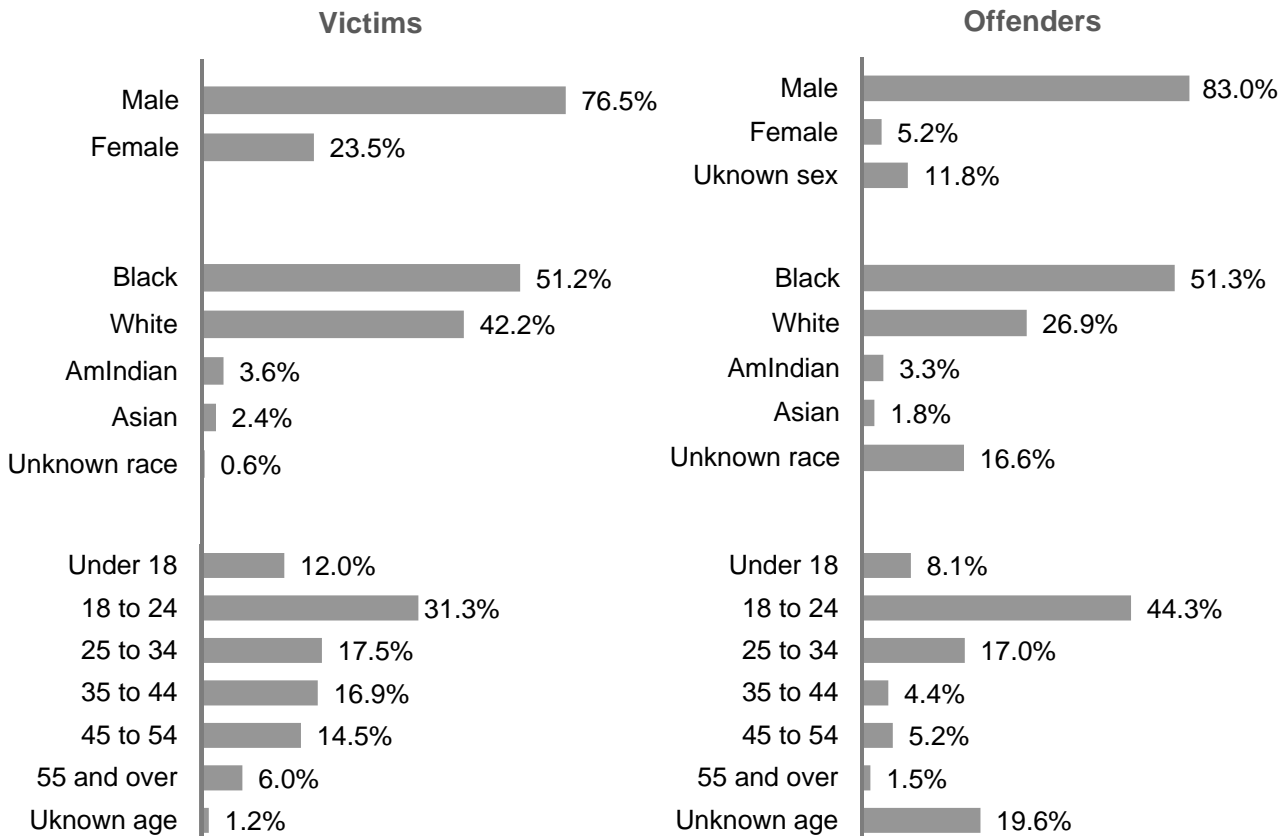

### Murders by Jurisdiction

91 victims, or 55% of Wisconsin murders, were reported by Milwaukee Police Department. No other Wisconsin agency reported more than 6 murders. However, Milwaukee Police Department's murders increased by only 4 incidents in 2012, suggesting that the majority of the increase in Wisconsin murders came from jurisdictions that typically have few murders.

### Victim and Offender Demographics

Men made up more than three-quarters of murder victims (77%) and the vast majority of known murder offenders. A slight majority of both murder victims and offenders were black. People aged 18 to 24 were the largest age category among both victims and offenders.

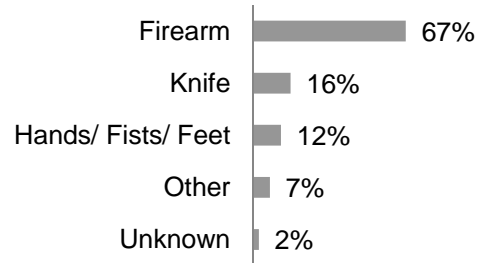

# Violent Crime

## Murder

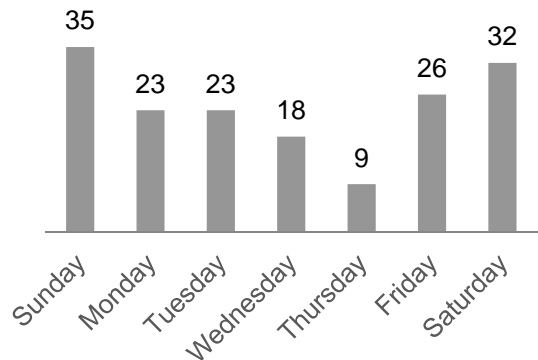

### Murder Characteristics

- **How Murders are Committed**  
Consistent with previous years, firearms were used in 67% of murders. Knives or other cutting instruments were the next most common murder weapon (16%), followed by personal weapons, such as hands, fists, or feet (12%).
- **When Murders are Committed**  
40% of murders were committed on weekend days (Saturday and Sunday). Fridays, Mondays, and Tuesdays were the next most common days for murders.
- **Where Murders are Committed**  
Roughly half (48%) of murders in 2012 occurred in a residence. Another 30% of murders occurred on highways, roads, or alleys. Church/ Synagogue/Temple was the third most common location for 2012 homicides because of the six homicides committed in a Sikh temple.
- **In What Circumstances Murders are Committed**  
31% of 2012 murders were committed during or as a result of arguments. 12% were committed either during drug/narcotics law violations or as a result of fights while under the influence of drugs or alcohol. Another 7% involved relationships, either during a divorce or separation, or related to a lover's triangle. One third of murders were reported with unknown circumstances.

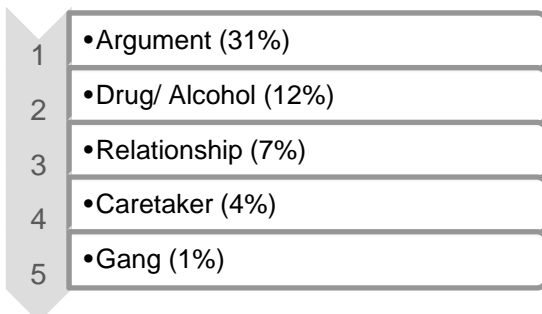

### Murder by Weapon Type

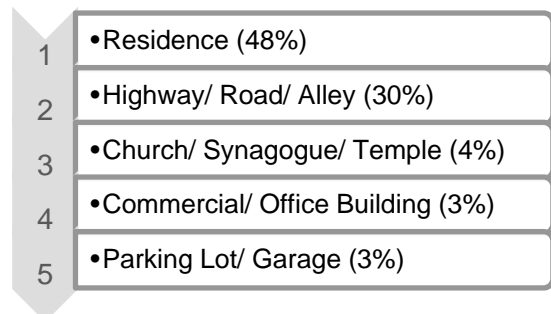

### Murders by Day of the Week

### Top 5 Reported Murder Circumstances

### Top 5 Reported Murder Locations

# Violent Crime

## Forcible Rape

### UCR Definition

*Forcible rape is the carnal knowledge of a female forcibly and against her will.*

*Assaults and attempts to commit rape by force or threat of force are also included. Statutory rape without force and other sex offenses are excluded.*

**↑3.6%**

increase in forcible rapes

**1,224**

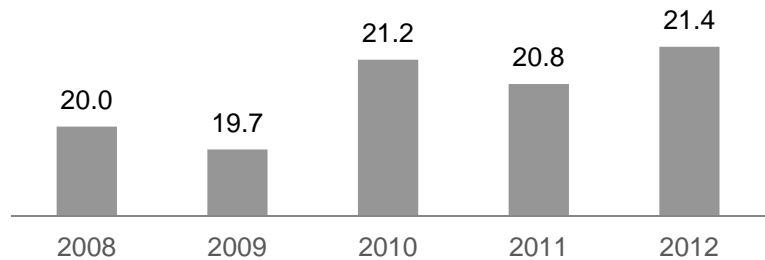

women raped

**60%**

cleared by arrest

### Forcible Rape Rates

Crimes per 100,000 Wisconsin residents

### Forcible Rape Trends

1,224 women were reported forcibly raped in Wisconsin in 2012, up 3.6% from the year before. That calculates to a rate of 21.4 forcible rapes per 100,000 Wisconsin residents. This rate is similar to the rape rate in Wisconsin for the previous two years.

For comparison, in 2011 nationally there were 26.8 forcible rapes per 100,000 residents. In the Midwest in 2011 there were 31.4 forcible rapes per 100,000 residents.

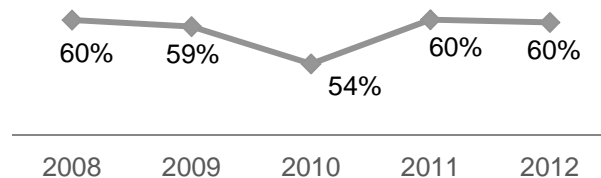

Rape is a challenging crime for law enforcement to track. Reported forcible rape figures can be affected by victims' willingness to report offenses, victims' comfort level with local law enforcement, and other factors. This crime tends to be underreported. According to the 2011 National Crime Victimization Survey conducted by the U.S. Department of Justice Bureau of Justice Statistics, 27% of rapes or sexual assaults were reported to police. Overall, 49% of all violent crimes were reported according to the same survey.

### Forcible Rape Clearance Trends

The percent of forcible rapes cleared stayed at 60% for a second year in a row, after experiencing a five-year low of 54% in 2010.

Nationally in 2011 41.2% of reported rapes were cleared by arrest.

### Forcible Rape Clearance Rates

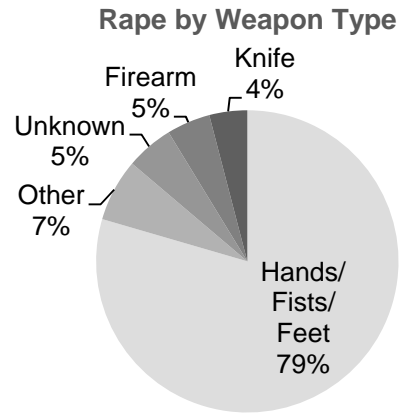

# Violent Crime

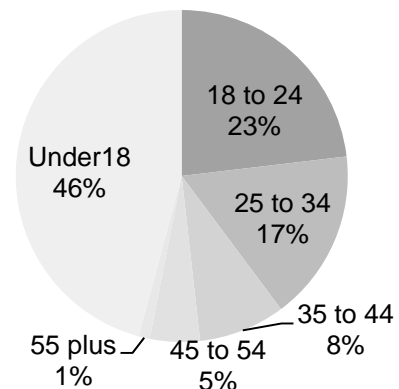

## Forcible Rape

### Forcible Rape Characteristics

- **How Rapes are Committed**  
Personal weapons including hands, fists, or feet were by far the most common weapon used in forcible rapes, involved in 79% of reported rapes in 2012. Firearms were used in 5% of reported rapes, and knives or other cutting instruments in 4%.
- **Where Rapes are Committed**  
Three-quarters (75%) of reported rapes occurred in a victim's, offender's, or other residence. The next most common rape location was hotel/ motel/ temporary lodging (4%).
- **How Victims and Offenders are Related**  
The most common victim/offender relationship for both adult and juvenile victims was an acquaintance relationship (48% of adult victims, 50% of juvenile victims). For juvenile victims, family was the next most common victim/offender relationship group (19%). For adult victims, the second most common victim/offender relationship status was stranger (15%).
- **Who is Involved**  
45% of victims were juveniles under the age of 18. 23% of victims were aged 18 to 24.

### Rape by Victim Age

#### Adult Victim/ Offender Relationships

- Acquaintance (48%)
- Stranger (15%)
- Family (13%)
- Unknown (9%)
- Sexual Relationship (9%)
- Otherwise Known (6%)

#### Juvenile Victim/ Offender Relationships

- Acquaintance (50%)
- Family (19%)
- Sexual Relationship (10%)
- Otherwise Known (8%)
- Stranger (7%)
- Unknown (6%)

### Top 5 Reported Rape Locations

- 1 •Residence (75%)
- 2 •Hotel/ Motel/ Temp. Lodging (4%)
- 3 •Highway/ Road/ Alley (3%)
- 4 •Offender's Vehicle (3%)
- 5 •Other/ Unknown (19%)

# Violent Crime

## Robbery

### UCR Definition

*Robbery is the taking or attempting to take anything of value, from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.*

**↑0.02%**

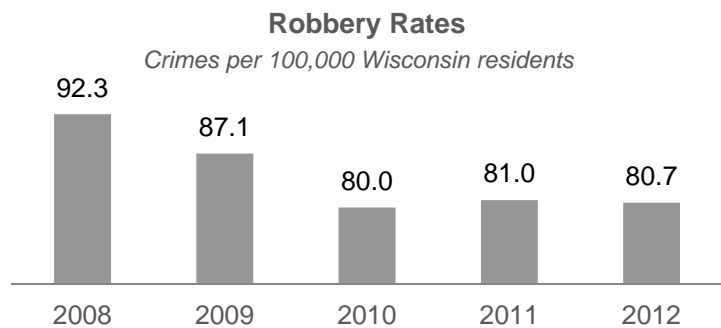

no significant change in robberies

**4,607**

robberies reported

**27%**

cleared by arrest

### Robbery Trends

Reported robberies in Wisconsin have remained stable over the past three years. Between 2011 and 2012, there was no significant change in the total number of robberies reported in Wisconsin.

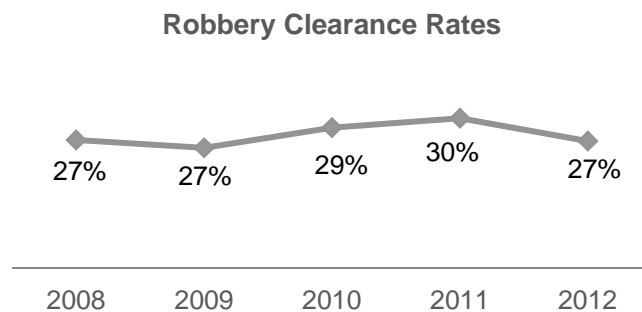

There were 80.7 robberies committed per 100,000 Wisconsin residents. For comparison, in 2011 the national robbery rate was 113.7, and the Midwest robbery rate was 106.2 robberies per 100,000 residents.

### Robbery Clearance Trends

Among the violent crime categories, robbery typically has the lowest rate of clearance by arrests. That remained true in 2012 when Wisconsin law enforcement cleared 27% of reported robberies.

Robbery clearances were down three percentage points in 2012 from 2011.

Nationally, in 2011 28.7% of reported robberies were cleared by arrest.

# Violent Crime

## Robbery

### Robbery Characteristics

#### ➤ How Robberies are Committed

Firearms were the most commonly used weapon in robberies, used in 50% of robberies. Strong-arm tactics (hands, fists, feet) were the next most common weapon, involved in 37% of robberies. Knives were used in 5% of robberies, and other dangerous weapons in 8%.

#### ➤ Shift towards Strong-arm, away from Firearms

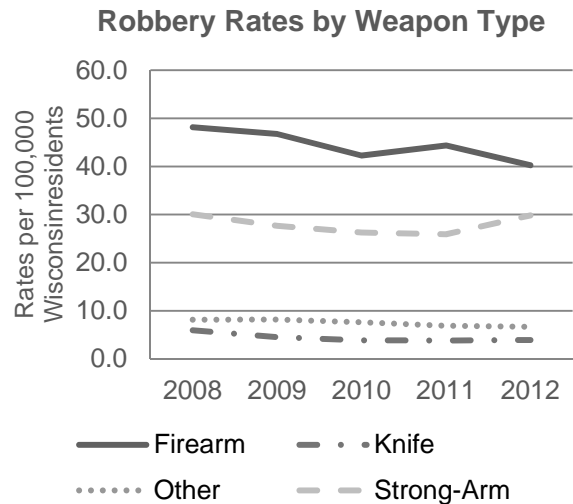

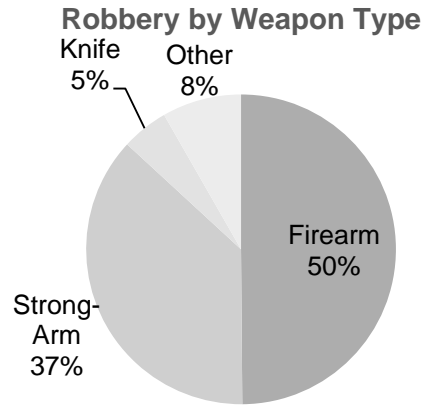

Over the 2007 to 2011 period, weapon types remained fairly stable as a percentage of robberies committed. Use of firearms over that five year period ranged from 52% to 55% of robberies. Use of strongarms stayed between 32% and 33%. The 2012 increase in use of strong-arm tactics to 37% of robberies, and the decrease of firearms from 54% in 2011 to 50% of robberies in 2012 represents a slight shift in robbery weapon usage.

#### ➤ Where Robberies Occur

Highways were the most common location for robberies (56%), followed by residences (15%), and commercial houses (8%) other than banks, gas/service stations, or convenience stores.

#### ➤ How Much is Stolen

The most common robbery type, robbery on a highway, street, or alley had an average property stolen value of \$600. Only 3% of robberies occurred in banks, but that location yielded the highest average value stolen, at an average of \$2,900 per bank robbery.

Robbery Location	Percent of Robberies	Value Stolen (rounded to the thousand)	Average Value Stolen (rounded to the hundred)
Highway/Street/Alley	56%	\$1,476,000	\$600
Residence	15%	\$697,000	\$1,000
Miscellaneous	12%	\$435,000	\$800
Commercial House	8%	\$438,000	\$1,200
Convenience Store	4%	\$90,000	\$600
Bank	3%	\$415,000	\$2,900
Gas/ Service Station	3%	\$109,000	\$900

# Violent Crime

## Aggravated Assault

### UCR Definition

Aggravated assault is an unlawful attack by one person upon another for the purpose of inflicting severe or aggravated injury.

Attempted aggravated assault that involves display of a weapon is also included in this crime category.

**↑18.3%**

increase in aggravated assaults

**9,972**

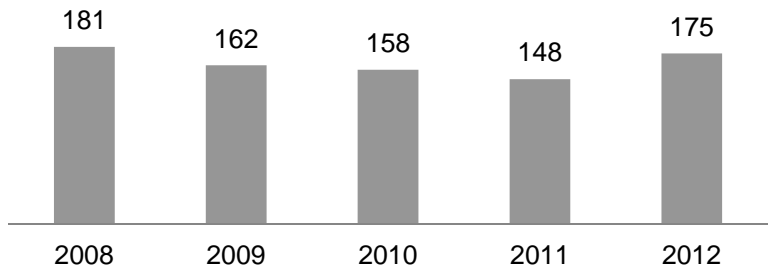

aggravated assaults reported

**64%**

cleared by arrest

### Aggravated Assault Rates

Crimes per 100,000 Wisconsin residents

### Aggravated Assault Trends

This category makes up a majority of violent crimes. In 2012, aggravated assaults accounted for 62% of Wisconsin violent crimes.

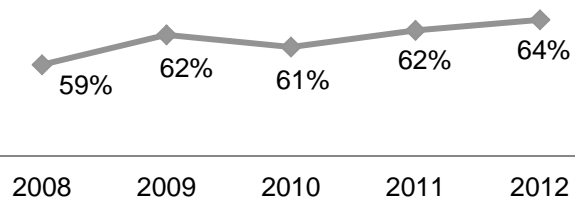

Aggravated assaults saw the second largest increase across crime categories in Wisconsin in 2012. There were 175 aggravated assaults per 100,000 Wisconsin residents, up from 148 in 2011. For comparison, in 2011 the national aggravated assault rate was 241, and the Midwest rate was 208.

### Aggravated Assault Clearance Trends

Clearances of aggravated assaults increased two percentage points in 2012 to 64%.

Nationally in 2011, 56.9% of reported aggravated assaults were cleared by arrest.

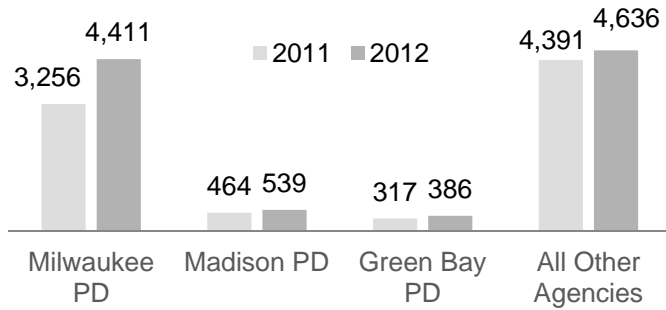

### Aggravated Assault Clearance Rates

# Violent Crime

## Aggravated Assault

### Aggravated Assaults by Jurisdiction

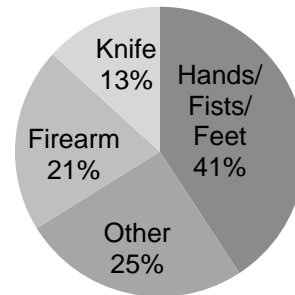

Wisconsin's 18.3% increase in aggravated assaults was driven by a major increase in aggravated assaults reported by the state's largest cities, especially Milwaukee, which reported aggravated assaults increased 35% in 2012 over 2011. Because Milwaukee Police Department's reported aggravated assaults make up more than 40% of the state's aggravated assaults, that jurisdiction has a major influence on state assault trends. Higher aggravated assault increases were also seen by Madison Police Department (up 16%) and Green Bay Police Department (up 22%). Agencies for all other jurisdictions reported aggravated assaults rose only 5.6%.

### Aggravated Assault Characteristics

- **How Aggravated Assaults are Committed**  
Personal weapons such as hands, fists, or feet were the most commonly used weapon (41%) in aggravated assaults in 2012. Firearms were used in 21% of aggravated assaults, up 3.1 percentage points from 2011. Knives or other cutting instruments were used in 13% of aggravated assaults, and other weapons were used on 25% of aggravated assaults.
- **Where Aggravated Assaults are Committed**  
On average, cities with populations over 50,000 experienced a higher aggravated assault crime rate than the state average, while cities with populations under 50,000 experienced a lower aggravated assault crime rate (see *Appendix B*).

### Aggravated Assault by Weapon Type

# Property Crime

## UCR Definition

Property crime is composed of four offenses: Burglary, Theft, Motor Vehicle Theft, and Arson.

The object of theft-type offenses is the taking of money or property without force or the threat of force against the victims.

**↑0.1%**

## Property Crime Rates

Crimes per 100,000 Wisconsin residents

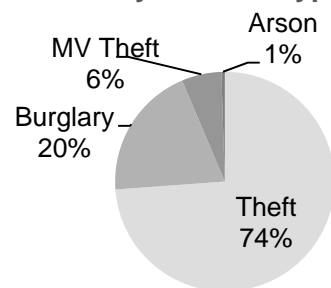

## Property Crime Trends

Between 2011 and 2012, there was no statistically significant change in the total number of property crimes reported in Wisconsin.

139,102 property crimes were reported, giving a 2012 rate of 2,435 property crimes per 100,000 Wisconsin residents. For comparison, in 2011 nationally 2,908 property crimes were reported per 100,000 residents, and in the Midwest 2,844 property crimes were committed per 100,000 residents.

Property valued at more than \$117 million was lost due to burglary (see page 20), theft (see page 22), and motor vehicle theft (see page 24). Property valued at more than \$7 million was lost due to arson (see page 26).

## Property Crimes by Offense Type

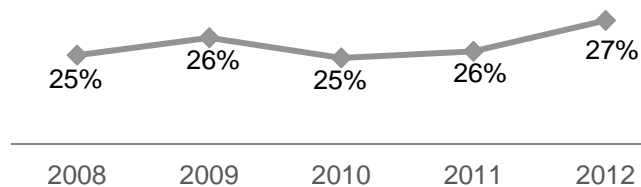

## Property Crime Clearance Trends

27% of property crimes were cleared by arrest in 2012.

Nationally in 2011, 18.6% of property crimes were cleared by arrest.

## Regional Trends

### Regional Property Crime Rates

*Crimes per 100,000 residents*

**Southeast 3,121**

**Southwest 2,339**

**North Central 2,040**

**Northeast 1,894**

**Northwest 1,782**

#### NORTHWEST

The Northwest region reported the lowest overall property crime rate in the state, and reported decreases in every property crime category. This region reported burglaries down 2%, theft down 5%, motor vehicle theft down 7%, and arson down 4%.

#### SOUTHWEST

This region reported little change in burglary and theft, and decreases in motor vehicle theft (down 14%) and arson (down 18%). The region's property crime rate was near the state average, but its theft rate was the second highest in the state, at 1,842 thefts per 100,000 residents.

#### NORTH CENTRAL

This region's property crime rate was below the state average. In 2012, burglaries increased by 5%, theft increased by 1%, motor vehicle theft declined by 2%, and arson increased 110%.

In 2012, this region reported 61 arson offenses, compared to 29 in 2011. 71% of the increase in arson in this region can be attributed to incidents reported by Wausau PD.

#### NORTHEAST

The Northeast region had the second-lowest property crime rate for 2012, but the highest year-over-year increase in property crimes reported.

This region reported burglaries up 14%, theft up 4%, motor vehicle theft up 3%, and no change in arson. The agencies that reported the largest increase in burglaries were Green Bay PD (up 31%), Marinette County SO (up 23%), and Oconto County SO (up 27%).

#### SOUTHEAST

In 2012 Southeast Wisconsin reported little change in its number of burglaries, thefts, and motor vehicle thefts.

This region had the highest crime rates across all property crimes: burglaries, thefts, motor vehicle thefts, and arson.

The rate of motor vehicle theft was 284 per 100,000 residents – four times higher than in the next highest region. In fact, this region accounted for over 70% of the motor vehicle thefts in Wisconsin, with 90% of these motor vehicle thefts occurring in Milwaukee County.

## Major City Trends

About one-third of the property crimes reported in Wisconsin in 2012 occurred in Wisconsin's major cities: Milwaukee, Madison, and Green Bay, each of which has more than 100,000 residents. Reports from those three cities' police departments combined show property crimes overall at roughly the same level as in 2011, appearing to level off after declining for several years. The three cities combined saw burglary up 2.5%, theft down 2.2%, motor vehicle theft up 3%, and arson up 8%.

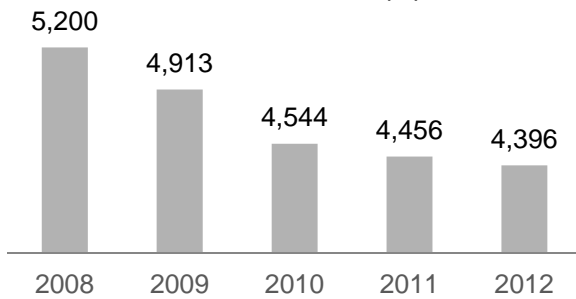

In Wisconsin's three largest cities in 2012:

- Milwaukee PD reported a motor vehicle theft rate of 804 motor vehicle thefts per 100,000 residents. Madison PD and Green Bay PD had motor vehicle theft rates roughly eight times lower than Milwaukee, at 107 and 103 respectively. Milwaukee PD also reported a much higher rate of theft of motor vehicle parts and accessories. Thefts of motor vehicle parts and accessories made up 22% of Milwaukee thefts, 4% of Green Bay thefts, and 2% of Madison thefts.
- Arson incidents made up one percent or less of property crimes in all three cities.
- 43% of burglaries in these three cities occurred during the day (6AM-6PM). 23% occurred at night (6PM-6AM). For the remaining 33% of reported burglaries, the time of the burglary was unknown.
- For Madison and Green Bay, the most common reported theft locations were victim residence and department/discount store. Milwaukee's reported most common reported theft locations were highway/road/alley and parking lot/garage, driven by thefts from motor vehicles and thefts of motor vehicle parts and accessories.

## Burglary

### UCR Definition

*Burglary is the unlawful entry of a structure to commit a felony or theft.*

*This includes forcible entry, unlawful entry with intent to commit a larceny or felony, and attempted forcible entry.*

**↑2.5%**

increase in burglaries

**27,514**

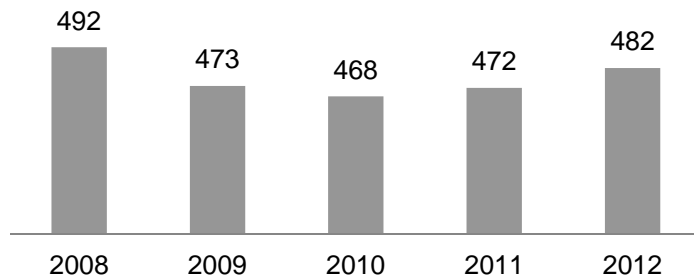

burglaries reported

**16%**

cleared by arrest

### Burglary Rates

Crimes per 100,000 Wisconsin residents

### Burglary Trends

Burglary is the second largest category of property crime, after theft. In 2012, over 27,000 burglaries were reported in Wisconsin for the first time since 2008, a 2.5% increase from 2011.

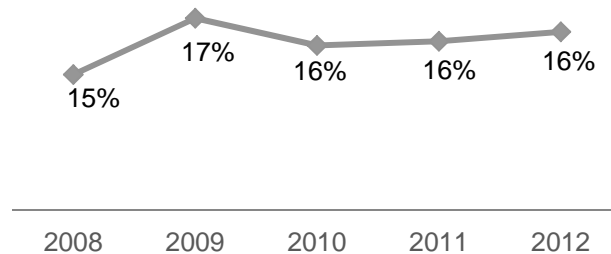

There were 482 burglaries committed per 100,000 Wisconsin residents. For comparison, in 2011 the national burglary rate was 702 per 100,000 residents, and the Midwest rate was 685 per 100,000 residents.

### Burglary Clearance Trends

Law enforcement cleared by arrest 16% of all burglaries in 2012.

Clearance rates for burglary in Wisconsin have remained relatively stable for the past decade, staying between 15% and 17%.

### Burglary Clearance Rates

# Property Crime

## Burglary

### Burglary Characteristics

- **How Much is Stolen in Burglaries**  
Approximately \$44 million in property was stolen in burglaries, an average of \$1,592 per burglary. Residential burglaries on average had a higher value of property stolen than non-residential burglaries, but the average difference was less than \$100.
- **Where Burglaries are Committed**  
The majority of burglaries were committed in residences (66%). 34% of burglaries were committed in non-residence locations.
- **When Burglaries are Committed**  
A large percentage of both residential and non-residential burglaries are reported with unknown time of offense. For those offenses where the time is known, residential burglaries were more often reported as occurring during the day, while non-residential burglaries were more often reported as occurring at night.

### Property Stolen in Burglaries

# Property Crime

## Theft

### UCR Definition

Theft is the unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another, including attempts.

This includes all thefts in which no force, violence, or fraud occurs.

**↑0.4%**

no significant change in theft

**102,713**

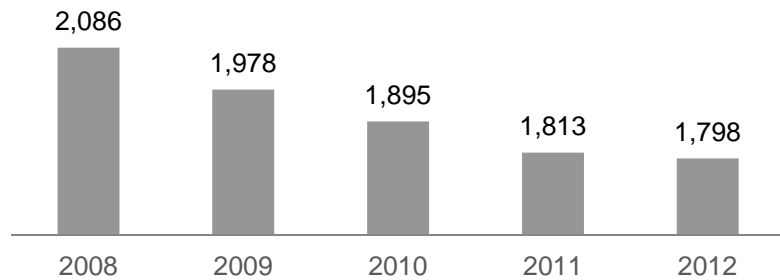

thefts reported

**31%**

cleared by arrest

### Theft Rates

Crimes per 100,000 Wisconsin residents

### Theft Trends

Theft accounts for roughly three-quarters of all property crime in Wisconsin. 102,713 thefts were reported in Wisconsin in 2012, roughly the same number as were reported in 2011.

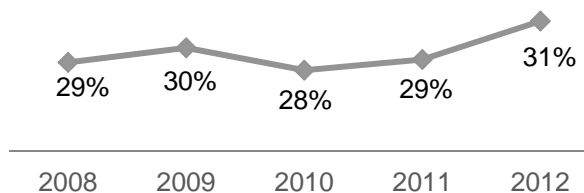

There were 1,798 thefts committed per 100,000 Wisconsin residents. For comparison, in 2011 the national theft rate was 1,977 per 100,000 residents, and the Midwest rate was 1,953 per 100,000 residents.

### Theft Clearance Trends

Theft tends to have the highest clearance rates among property crimes. In 2012, law enforcement cleared by arrest 31% of thefts.

Clearance rates for theft in Wisconsin have remained relatively stable over the past five years, staying between 28% and 31%.

### Theft Clearance Rates

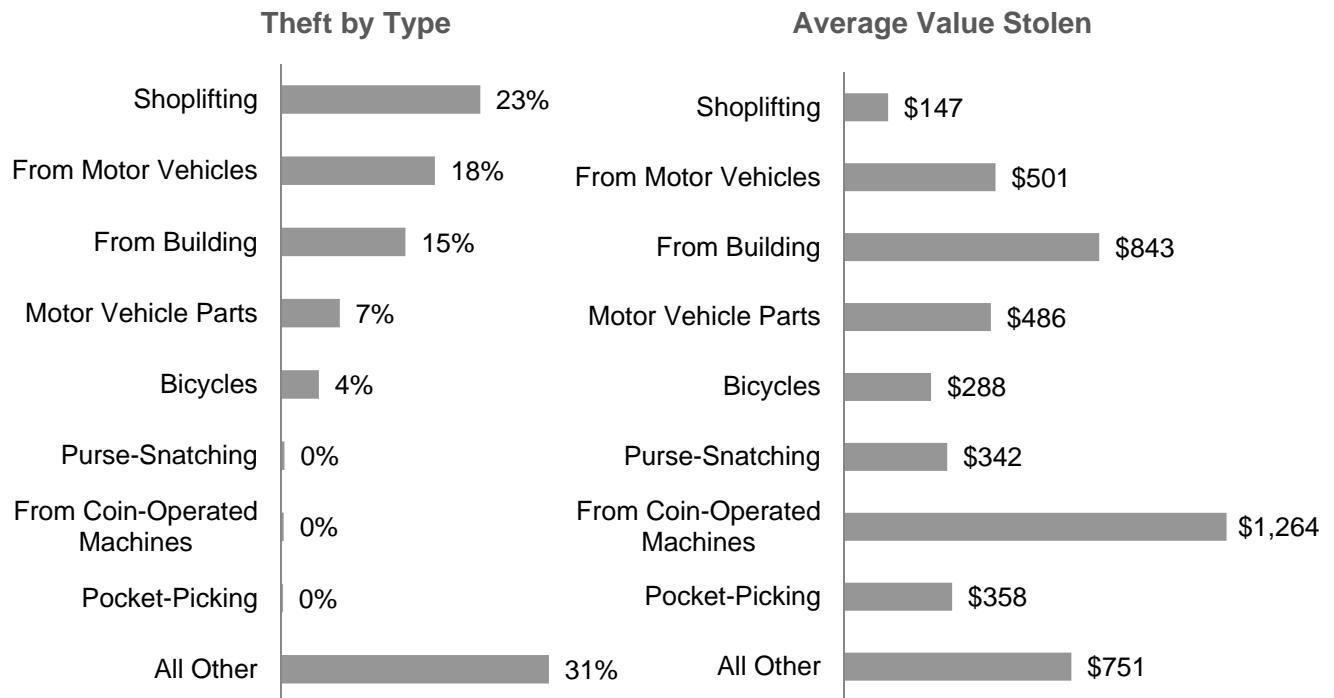

# Property Crime

## Theft

### Theft Characteristics

- **What Kinds of Thefts Are Committed**  
Statewide, shoplifting was the most common single type of theft, followed by theft from motor vehicles and theft from a building.
- **How Much is Stolen in Thefts**  
Property valued at more than \$31 million was stolen in 2012 thefts. The most common type of theft, shoplifting, had the lowest average value of property stolen at an average of \$147 per shoplifting theft. The next most common theft types yielded significantly higher average stolen property values.

**\$31 million**  
total value of property thieved

# Property Crime

## Motor Vehicle Theft

### UCR Definition

Motor vehicle theft is the theft or attempted theft of a motor vehicle.

This offense includes the stealing of automobiles, trucks, buses, motorcycles, snowmobiles, etc. The taking of a vehicle for temporary use by persons having lawful access is excluded.

↓1.2%

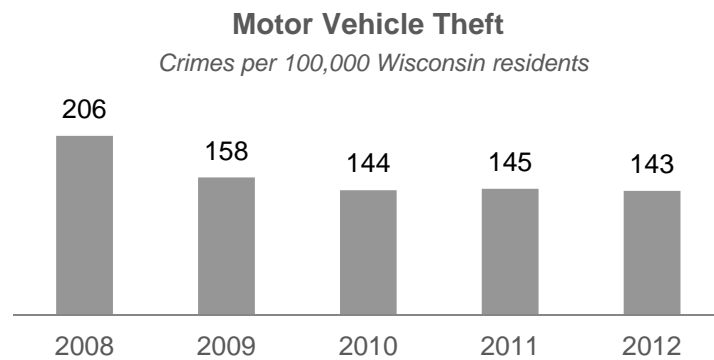

decrease in motor vehicle thefts

8,150

motor vehicle thefts

16%

cleared by arrest

### Motor Vehicle Theft Trends

8,150 motor vehicle thefts were reported in Wisconsin in 2012, slightly fewer than were reported in 2011. A majority (59%) of the motor vehicle thefts for the state were reported by the Milwaukee Police Department, which had 804 reported motor vehicle thefts per 100,000 residents, compared to a statewide average of 143. This disparity may be largely due to the relationship between population density and motor vehicle thefts. There tend to be more motor vehicle thefts per capita in areas where people live more closely together than in more spread out areas.

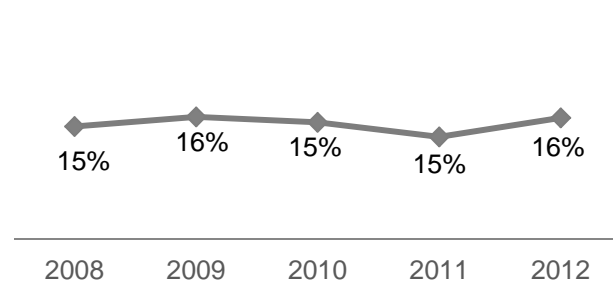

For comparison, in 2011 the national motor vehicle theft rate was 227 per 100,000 residents, and the Midwest rate was 206 per 100,000 residents. Nearby Chicago, Illinois reported a 2011 rate of 719 motor vehicle thefts per 100,000 residents.

### Motor Vehicle Theft Clearance Trends

Like burglary, motor vehicle theft tends to have among the lowest clearance rates. In 2012, law enforcement cleared by arrest 16% of motor vehicle thefts.

Clearance rates for motor vehicle theft in Wisconsin have remained relatively stable over the past five years, staying at 15% to 16%.

### Motor Vehicle Theft Clearance Rates

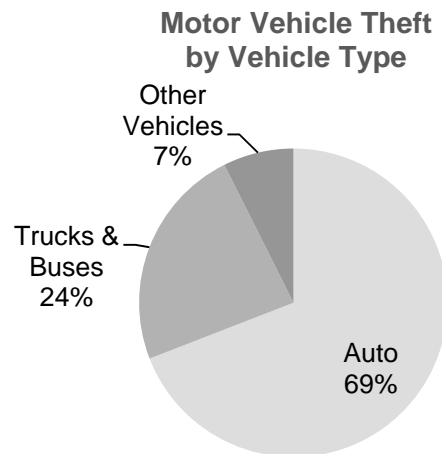

# Property Crime

## Motor Vehicle Theft

### Motor Vehicle Theft Characteristics

- **What Vehicles are Stolen**  
More than two-thirds of motor vehicles stolen in 2012 were automobiles. 24% were trucks or buses, and 7% were other motor vehicles such as motorcycles, snowmobiles, etc.
- **How Much is Stolen in Motor Vehicle Thefts**  
Property valued at more than \$42 million was stolen in 2012 thefts. Motor vehicle thefts averaged just under \$5,200 per vehicle stolen.
- **Where Stolen Vehicles Are Recovered**  
Most stolen vehicles that were recovered in 2012 were recovered in the same jurisdiction they were stolen in.

### Property Stolen in Motor Vehicle Thefts

**\$42 million**

total value of motor vehicles stolen

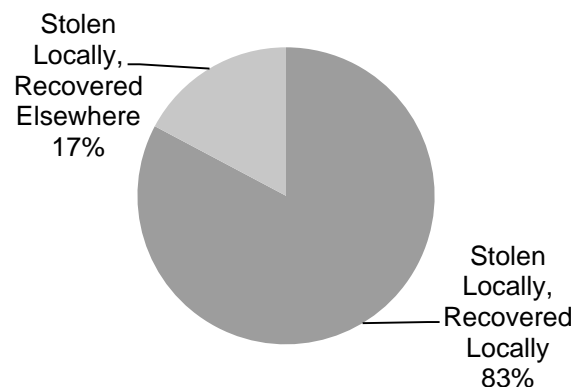

**\$30 million**

total value of motor vehicles recovered

**\$5,193**

average value of motor vehicles stolen

### Recovered Stolen Motor Vehicles by Recovery Jurisdiction

# Property Crime

## Arson

### UCR Definition

Arson is any willful or malicious burning or attempted burning, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc., with or without intent to defraud.

**↑4%**

increase in arson offenses

**725**

arson offenses

**23%**

cleared by arrest

### Arson Rates

Crimes per 100,000 Wisconsin residents

### Arson Trends

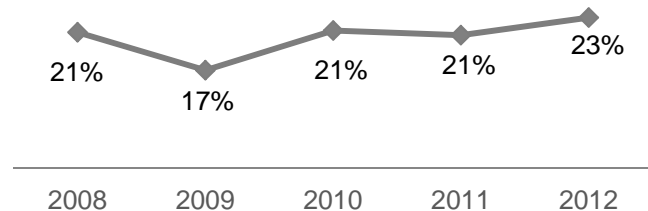

725 arsons were committed in Wisconsin in 2012, a 4% increase from 2011.

There were 12.7 arsons committed per 100,000 Wisconsin residents. For comparison, the 2011 national arson rate was 18.2 arsons per 100,000 residents.

### Arson Clearance Trends

In 2012, law enforcement agencies cleared by arrest 23% of all reported arsons. This is a two percentage point increase over 2011, and a six percentage point increase from a recent low of 17% in 2009.

### Arson Clearance Rates

# Property Crime

## Arson

### Arson Characteristics

➤ **What Type of Property is Burned**

Just under half of property lost to arson was structure property. Structures that were most frequently lost to arson were single occupancy residences, other residences, and storage structures.

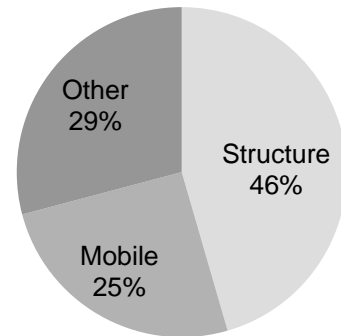

A quarter of properties lost to arson were mobile, including motor vehicles.

Other types of property, such as crops, timber, fences, etc., comprised 29% of all reported arson offenses.

➤ **How Much is Lost in Arson Offenses**

Property valued at roughly \$7.5 million was lost to arson in 2012. Arson to structures generated higher average property loss values than mobile arson.

Type of Property Damaged or Lost to Arson

	Percent of Arson	Average Loss
